MISFITS

Mad with war European nations are hardly responsible for what they do, like a man intoxicated.

This is interesting. Russia has ordered \$100,000,000 worth of steel rails of the U. S., and the war is in progress.

The boy who starts out a rowdy is apt to keep it up a long time.

The best time to think about marriage is before the ceremony.

Here is a 'ginger item in an exchange: Some men are such poor managers that if their job was to tear a leaf from the calendar every day they'd always be a day or two behind in their work.

This is often a one-sided old world in the little things of life.

Whenever booze takes a hand in a transaction there is loss.

Blessed is the man who pays up.

The man who has a thing to sell And goes and whispers down a well, is not so apt to collar the dollars As he who climbs a tree and hollers As he who climbs a tree and hollers.

The man who gets should pay in the different avenues of life.

Doing good in the world has its own reward.

Leakless Inner Tubes Goodyear Laminated Tubes Built Layer on Layer—Extra Thick

Here is something every motorist should know. Goodyear Laminated Tubes are built of many thin layers—each of pure rubber—vulcanized together. No flaw can be hidden as in a thick piece of rubber. It is seen and eliminated. Every layer is perfect.

Such a Tube can't leak. And our valve patch can't leak, because it is part of the Tube and not stuck on.

Remember that. Many a tire trouble is due to leaky Tubes.

Always Gray. Goodyear Laminated Tubes are not colored. They are gray—the natural pure rubber color. Color requires a large percentage of mineral adulteration. And minerals hold heat, a Tube's worst enemy.

Whatever tires you use, get Goodyear Tubes. They will outlast your tires, save you leaks and trouble. They will also convert you to Goodyear.

14% Heavier. Goodyear Laminated Tubes are extra heavy. They have always outworn any tire. But this year we have added 14 per cent to their average thickness—all pure rubber.
