## BIG EVENT TUESDAY IN THE O. A. C. YEAR

**Military Inspection Will Occur on May 18 With a Day's Program Arranged.**

Oregon Agricultural College, May 14—Military inspection day at the Agricultural College will be May 18 and as usual the event will be made one of the big days of the college year, Captain William T. Merry, of the general staff of the United States army, will for the third time be the inspecting officer. He will be assisted by three commissioned and three non-commissioned officers from the Vancouver Barracks. Governor Jas. Withycombe and Adjutant-General Finzer have been invited and are expected to attend. Colonel Cleward McLaughlin, of the Third Oregon Infantry, has accepted the invitation to be present and arrangements are being made to have Colonel C. E. Dentley of the U. S. army, now on leave in Portland, be present at the review. Colonel Dentley was at one time commandant of the O. A. C. regiment.

The program will start with review and inspection about 8:30 to be followed by such exercises as the inspector may require. Individual competitive drills by privates, corporals and sergeants will follow, prizes of \$5, \$3, and \$2 being given for first place, second and third, respectively. Company competitions will then be held to determine the holder of the Brodie banner, now held by Company E, for the coming year. In the afternoon the regiment will parade and perform such field exercises as the inspection officer desires. The War Department insists on as much field work as possible being done and this part of the exercises will be given a great deal of attention. Special railroad fares have been granted from all points between Port-

land and Eugene, inclusive, by both steam and electric lines. It is expected that large delegations of citizens who are interested in the training of their sons and their neighbors' sons, will, as usual, be present to witness this important event in the cadet's college life.

**Smallest Electric Motor.**  
The smallest electric motor in the world, just high enough to reach up under the chin of the head of Lincoln on a one-cent piece, has been built by

H. F. Keeler, a student in the Highland Park college of engineering at Des Moines, Iowa.

The armature is less than a quarter of an inch in diameter, and the wire is of the size of fine thread. A jeweler's microscope must be used to see the different parts, and the whole thing weighs twenty grains, or as much as a third of a teaspoonful of water. When coupled with small dry batteries it runs at a very high velocity, and makes a point like a fly on a window pane.

## Visiting Father Lane—

Miss Annie B. Shelby of Portland is a guest at the home of Father Lane in this city. Miss Shelby has just recently returned from San Francisco, where she spent some time in visiting the exposition. She has been occupied since her return in forming classes for study of the literary, historical and artistic features of the exposition and a number of Portland people, who have attended the exposition as well as others who are planning to attend have followed her lecture course with great interest. She may give a series of talks on this very interesting subject during her stay in this city.

J. B. Thompson has been in Dallas this week looking after business interests there. Mr. Thompson formerly conducted the Hotel Gail in that city.

is a stage, principal's office, etc. Bids will be called for for brick, concrete and tile construction.

## STATE GRANGE IS IN SESSION AT TILLAMOOK

Tillamook, Or., May 11.—(Special to Democrat)—Oregon State grange met in the 42nd annual session this morning in the I. O. O. F. hall. All the officers were present but the treasurer, H. Hershberg, and Ceres, Mrs. Reed, of Lebanon. The grange was called to order by C. E. Spense at 10 a. m. A large attendance was present.

The standing committees list was reorganized and vacancies filled. Announcements were made for the day when recess was taken for dinner.

The afternoon session was called to order at 1:30. The master read his annual address, and a number of resolutions were offered. One on Rural Credits; one opposing the letting of contracts for carrying the rural mail to be sublet by the contractors. Two for changes of the by-laws. All referred to committees.

## TULLY IS A BUSINESS AS WELL AS WRITING GENIUS

The appearance here of Guy Bates Post in "Omar, the Tentmaker," the spectacular Persian love play which comes to the Albany Opera House for one night, Wednesday, June 2nd, will give up an opportunity to see the latest play from the pen of Richard Walton Tully. This young American playwright has had a career of phenomenal success. "The Rose of the Ranch," "The Bird of Paradise," and "Omar, the Tentmaker" have all scored triumphs. Mr. Tully has not only written all of them, but he has furnished the business genius and financed the latter two, and he is now the principal owner of both. It is a remarkable record to have written three such hits in succession, but it is absolutely without parallel that a young man should also be the producer of two of his own plays in this manner. "Omar, the Tentmaker" scored a great triumph in New York last season, and en tour has repeated this success from coast to coast.
