Established in 1865.

FRIDAY, MAY 28, 1915.

**CONTINUES UPWARD.**  
Dun's weekly reports continue to be optimistic in character, indicating that the trend of business conditions is upward. Here is this week's:

The uncertainty regarding the European situation, and the broadening scope of the war, have occasioned some hesitation in general business and reduced the volume of trading in the stock and other speculative markets. The effect of this, however, while adding to the underlying conservatism, has not materially changed the recent trend toward normal conditions in the principal industries and trades. The improvement has held its own; and as the special advices received this week from ninety leading cities clearly show, there is a slow but steady expansion in business. Activity is most pronounced in the trades that benefit from the big war orders, but progress also appears in domestic consumption, especially in the agricultural sections, which have profited by the high prices for farm products and are now sustained by the prospects for larger crops this year. It is, moreover, shared to a considerable extent by the East, where liberal investment of capital has enabled many large loans, both foreign and domestic, to be taken up. Bank clearings and railroad earnings have increased. Money continues easy and more gold has been received from France. Collections are more prompt. Exports, while not so imposing, are still heavy. The iron and steel industry is making gains, in spite of the international uncertainties, and urgent foreign buying, especially by Russia, is supplemented by freer orders from railroads at home. In a dry goods market there is, in the main, a steady distribution and in some lines much activity, while exports of woollen goods are large. The shoe trade is moving slowly, but some improvement in present conditions and in prospect is noted. Retail distribution in all branches is affected for better or worse by the varying weather conditions in different parts of the country. The forward movement generally is slow, and the fact that there is no disposition to assume large speculative risks, in view of the international conditions with their serious problems, is altogether a healthy feature.

Flowers at 15c a bunch at L. Matthew's Friday, Saturday, m27, 28

**MISFITS**

It is about time the auto trader appeared to take the place of the old fashioned horse trader.

John B. these days is a good deal like some boys who like to ring as many other boys as possible into a scrap.

There is often a silver lining just the other side when things look bluest in the world.

A man can sometimes do the greatest service to the world by keeping still.

Mr. Schwab has come and gone, hardly noticed, with all his millions.

Some snap left in Salem when it can get 433 members to a commercial club in a day.

This is some week down this way: commonwealth, strawberry wealth and salesday.

It doesn't take much of an explosion to bust up Wall street these days.

J. B.'s admirability is undoubtedly prejudiced.

Rome has now gotten into line with the same old "it is officially announced."

Before the recent high school entertainment the boys posted up bills over the city headed "An Escaped Lunatic." Some women are reported to have taken it seriously, at least in two cases narrated.

**Fortified Tires**  
Have Pushed Millions of Rocks from the Tire Road

They have saved waste and trouble to hundreds of thousands of motorists. The result is that last year, despite some hundred rivals, men bought about one Goodyear for every car in use.

The rocks that remain are Mishap and Misuse. No tire can ever avoid them. But if you'll judge tires by merit, not by luck, you are bound to come to Goodyears. You'll find they average best.

The Rocks Avoided

We have saved millions of rim-cuts, blowouts and loose treads by features exclusive to Goodyears. We have brought you security through our piano-wire base.

Our All-Weather tread—exclusive to Goodyears—has minimized punctures, tread wear and skidding. It is tough and very thick. The grips are sharp-edged and resistless.

All these protections—the best ever developed—are in Goodyear Fortified Tires alone.

**Zeppelins Kill Women.**  
(By United Press Association)  
London, May 27.—Sailing within 40 miles of London, a Zeppelin bombarded South End-on-the-Sea last night. Two women were killed and a child injured by bombs dropped, but with little material damage, the official announcement stated.

The Zeppelin, it is believed, is reconnoitering for a possible attack on London, but upon being met by the British aviators, confined its activities to bombarding the seaside resort. The British aviators chased the Zeppelin but the admiralty stated that the airship had escaped.

**Gets the Horse Laugh—**  
A farmer residing between here and Tangent bought a tractor last year and was going to farm his 100 acre tract by the improved method. He got 140 acres plowed and 11 acres sown by the shot gun method. The soft condition of the ground made it impossible for him to move the big machine after the rains and now his engine sits in the middle of the field with nice green grain coming up all around it. June is nearly here and he still has 20 acres to plow and 149 acres to sow. There still seems to be hope for the old horse, and he can well laugh at the expense of his owner.
