City News

Jumped His Bond—

Night Officer Rodgers held up an auto Saturday night and took nine bottles of beer and a quart of whiskey from four men. One, named R. C. McBee, who seemed to be the owner of the goods, was placed under arrest, and deposited \$15 bonds to appear in court this morning at 10 o'clock. Long after that hour, however, he failed to appear, so his bail is forfeited and other means to locate him will be resorted to.

Orah Harkness Returns—

Mr. and Mrs. H. C. Harkness are in receipt of a letter dated from San Francisco from their daughter, Miss Orah, stating that she will arrive in Albany tomorrow evening at 7:05, and will remain here a few days before proceeding to Everett, Wn., to continue her Chautauqua work. Miss Harkness, who is among Albany's best talent as an elocutionist, recently accepted an offer to go on the Chautauqua circuit, and is meeting with great success in her work.

Death of W. Graser—

W. Graser died at his home at 640 E. 2nd street early this morning at the age of 61 years. Mr. Graser is survived by two sons and one daughter, Otto and John, and Mrs. Emily Miller. The deceased had lived in Oregon 14 years and had a wide acquaintance among whom he was regarded very

highly. Funeral notice will be given later.

U. O. Men—

Harold Tregilgas, who is now a student in the U. O., spent Sunday in Albany. He is a former Albany high school student. Several other U. O. men were also in town over Sunday.

At Willamette Commencement—

Mr. and Mrs. J. S. Van Winkle and three sons went to Salem yesterday to attend commencement of Willamette, and to visit with a brother of Mr. Van Winkle.

Sen. Chamberlain Passed Through—

U. S. Senator Geo. E. Chamberlain passed through the city Saturday evening for Portland, from Corvallis, where he had been to attend the big barbecue. He will be here again Wednesday to deliver the address to the graduating class of the college.

An Albany Teacher—

Mrs. Maud Crosby Strauss went to Portland Saturday for a visit. Later she expects to go to California, and may do some work in the summer school at Berkeley.

A. O. U. Graduate—

Mr. and Mrs. H. Y. Kirkpatrick, Mrs. C. H. Ralston, Miss Fannie Griggs and Miss Isabelle Garland, of Lebanon went to Eugene yesterday to see Miss Katherine Kirkpatrick graduate this week. Mrs. Kirkpatrick has been engaged as one of the teachers in the Lebanon high school the coming year.

Old Student Banquet—

There is much interest in the banquet of old students of Albany Cal-

lege to be given tomorrow noon. It is to be in the basement of the First Presbyterian, beginning promptly at 12 o'clock. Those attending will meet up stairs and go down from there. Besides the feast there is to be an after dinner program.

Corvallis Had Crowd—

Albany people at the farmers' reception at Corvallis Saturday report it a great event. There was an immense crowd and everybody had something to eat in the barbecue presented. The court house lawn was used freely, the court there believing it belongs to the people and is for use. The principal address was by Senator Chamberlain.

Returned to Gates—

Mrs. H. A. Schroeder returned to her home in Gates yesterday after a visit in this city at the home of Mrs. Isabelle Beeson and family. She was taken back by auto by her brother, A. L. Beeson.

Big Strawberries—

J. W. Bishop, who has a fine six acre patch of strawberries on his place near Lebanon, brought a load of his fruit to market in this city this morning and incidentally left a couple of boxes with the commercial club. Each box contained 18 berries—two layers with nine in each layer. They are the finest berries, size and flavor considered, that have found their way to market this year.

Carload of Beer—

A new drink has made its appearance in Albany. The salesman calls it, and the label on the bottles read, "Golden Cream," and is said to be harmless and non-alcoholic. Officer Griff King is at a loss as to what to make of it. The shipping receipt at the express office calls the stuff beer. It is the intention of the producers to make Albany the distributing point for this section of the state, and a car load of the beverage will soon arrive. King says it looks like beer, smells like it and tastes like beer, and has to be shown if it is not beer.

Back from San Francisco—

Mr. and Mrs. Will Barrett returned yesterday from San Francisco, where they have been the past two weeks visiting the fair and other points of interest.

La Grande Guests Here—

Mr. and Mrs. Fred Ward have as their guests Mrs. Ward's uncle, S. M. Pennington, Mrs. Pennington and daughters, Miss Mary Pennington and Mrs. Lloyd Scriber, all of LaGrande. They are on an extended tour to California and are making the trip in their Winton Six automobile. After visiting in Albany a few days they will proceed to California, where they will remain during the winter touring the state. Next spring they will start home, going via the Grand Canyon of Colorado, Yellowstone Park and other points of interest.

Pheasants Hats Here—

The first shipment of Pheasant's hats have arrived at the Toggery, and more will be in a few days. The emblems for the arms of the coats have been ordered by Fred Dawson, president of the Pheasants, and will arrive in due time. The emblem will be a pheasant cock embroidered in silk and fastened to the left sleeve of the coats. The club will make its first appearance away from home at Salem during the celebration at Salem July 2nd and 3rd.

A Vote from Coquille—

Fred Dawson is in receipt of a parcel from Coquille, consisting of a sheet of stationery of the Agricultural Insurance Co., Holt and Stone, agents. On the letterhead was pasted a ten vote coupon slipped from the Democrat, with Miss Beniah Hinckley's name written on the face, and underneath the coupon is written: "Say, Fred, it pays to advertise." Mr. Dawson is at a loss to know who sent the coupon, but agrees with the sender that it pays to advertise in the Democrat if results can be had from such a distance.

Inspector Left—

W. B. Chance left this morning northward on a mill inspecting trip. As a matter of fact Mr. Chance inspects everything with machinery, from a print shop down.

Committed Suicide in California—

The remains of Jack Alphin were taken through the city last night from California to Corvallis for burial. He was reported to have committed suicide. He was a young man, and has relatives in this county.

Left for Fisher Farm—

Ruth Fisher left this morning on the O. E. for Talbot, just across the Santiam, where she will spend the summer with her folks. A crowd of girls were at the depot to see her off.

Former College Student—

Among those here to attend commencement is Mrs. Dora Page Orcutt, of Oakland. She is a graduate of Albany College, of 16 years ago, and has many friends here who are glad to have her with them.

Returned from Picnic—

Walter Patterson returned this

morning from Brownsville, where he ran a pop-corn wagon during the picnic. He did a good business notwithstanding the bad weather.

Left on Long Trip—

Geo. L. Howe left last night on a long trip over the U. S., covering nearly three months. He will visit the two fairs in California, and then go east to New York, afterwards up to Montreal and then back home, stopping at different places, getting here in time for the opening of his school in the Fall.

The Evangelical Revival—

The revival services at the Evangelical church yesterday were largely attended. At the evening service the class room was opened to accommodate the crowd. At this service five bowed at the altar as penitents, some of whom are heads of families. People from every part of the city are attending the revival and from the beginning the attendance and interest have increased daily.

SALEM WINS FAST GAME

(Continued from Page 1.)

but was caught napping a moment later by Jones on the old hidden ball trick. Small flew out, Briggs taking third on the throw in. Ryals hit down to third base line, but Briggs started too late and was caught at the plate.

It was a good game throughout, and was attended by the largest crowd of the season. This makes one game each for the two teams, and some lively contests may be looked for when they hook up again in Salem during the 4th of July celebration next month.

The score in detail:

	AB	R	H	E	O	A	E
Ryals	5	0	0	2	4	2	
Mickels	4	1	1	12	0	0	
Clark	4	0	2	6	3	1

Used by other cars—Yes! —but not in a Studebaker

Semi-floating Rear Axle

Dangerous in that the axle shaft not only has to turn the wheels but also carries the weight of the car and takes up the side thrust. Does EXTRA work and endangers the shaft. In place of it, Studebaker has a FULL-floating Rear Axle which carries the car on the axle housing, has TWO Timken bearings in EACH hub to take up side thrust—and leaves the shaft itself free merely to turn the wheels. Safe on any roads at any speeds. Be sure your car has a safe rear axle.

High-Tension Magneto

As unnecessary as a fifth wheel on a wagon—and not as good for it—doesn't give the hot spark at slow motor speeds when the hottest spark is needed. In place of the back-number magneto, Studebaker uses an electric system ignition, like most of the other high-grade cars. Doesn't vary with the motor's speed—always delivers 100% ignition energy. Insures SURE, steady firing.

Thermo-siphon Cooling System

Requires so much larger a volume of water that radiator, water-pumps and hoses have to be much larger and HEAVIER. Operates well only when system is FULL. In place of it, Studebaker has a Force-pump system that allows the lightest cooling system possible, but guarantees thorough and efficient cooling always. Be sure your car has the same TRUSTABLE-preventing system of cooling.

Drive Thro' Springs

Make it necessary to use stiffer springs. Hence, car becomes HARD-riding. Also, disturbs alignment of drive when car hits a stone or drop into rut. In place of it, Studebaker has TWO radius rods and torque arm which relieve springs altogether and free them for the one task of smothering jolts and jars. Be sure your car drives thro' radius rods and a torque arm. It means riding-COMFORT.

Pressure or Suction Gasoline Systems

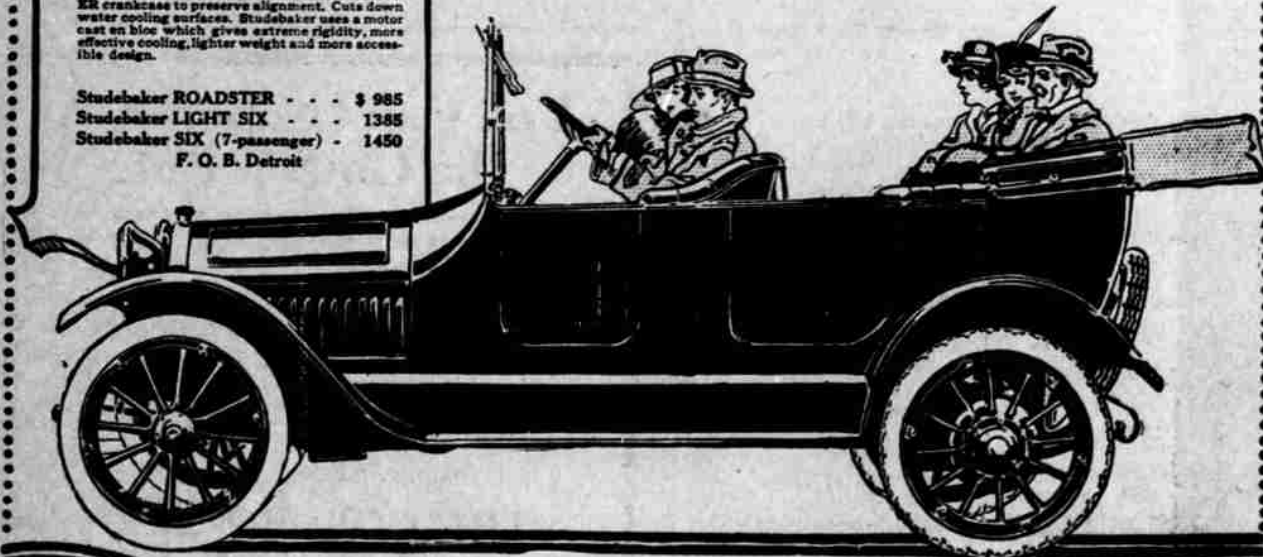

Troublesome—liable to leak air with such long lines of piping. Studebaker places tank in cowl—makes it easier to fill. And shortens line of piping to carburetor from eight feet to eighteen inches. Gives SURE feed on any grade.

Cylinders Cast Singly

Makes motor much HEAVIER—calls for HEAVIER crankcase to preserve alignment. Cuts down water cooling surfaces. Studebaker uses a motor cast in bloc which gives extreme rigidity, more effective cooling, lighter weight and more accessible design.
