Mrs. C. W. Tebault and sons desire to express their heartfelt thanks to all who so kindly aided and comforted them during their bereavement.

Card of Thanks—Mrs. C. P. Schoel and family desire to express their thanks for the sympathy and kindness during the illness and after the death of their beloved husband and father.

Celebrate July 5 at Jefferson.

THE STUDEBAKER CAR IS A HILL CLIMBER

"I'm going to take you up a real hill, which is only a couple of blocks out of our way, and show you the advantage of the gas tank in the cowl dash. It brings the carburetor right up against the engine and gives a very short feed pipe, which can be taken off, cleaned out and put back in a very few minutes, and there is less danger with the tank located in the cowl than any other part of the car. You see there is a gauge on the gas tank so you don't have to measure the gas or keep track of your mileage to see how much gas you have. "This is Quintero street, a 30 per cent grade. Oh, yes, this car will go up here. As you see now, a car with the tank under the seat could not get gas to the carburetor unless you had pressure on the tank. This tank in the cowl gives a gravity feed and it

TODAY'S PROGRAM AT THE Hub Theatre

The Twelfth Episode of the BLACK BOX, also a Modern Society Drama, with Violet Mersereau in The Broken Toy King Baggot and Jane Gail in a One-act Comedy 50.50

COMING WED. and THUR. The 3 No. of "Under the Crescent" THE HUB FOR GOOD PICTURES Always 10c

AT THE THEATRES.

The Kenworthy Players, closed a most successful week at the Globe Saturday evening and left for Salem to fill a week's engagement at the Oregon theatre. They will return a week from Wednesday for another four days in an entire change of plays. Today Manager Ayres is offering two vaudeville acts in addition to the pictures tonight and tomorrow. Jack Martin, champion roper and cowboy comedian, has some clever tricks with the rope and comes from Salem with a good record. Pretty Miss Dorris Cackette, of the Colonial Theatre, Vancouver, B. C., is stopping in the city for a visit and has been engaged to sing solos all this week. She has a pretty soprano voice and will no doubt please the Albany public. An excellent bill is offered today and tomorrow at the Hub Theatre. The Black Box, the serial by F. Phillips Oppenheim, has proved very popular and the operations of Santord Quest, the scientific detective, are awaited with interest from week to week by a large number of people. The twelfth chapter of that serial appears today. "The Broken Toy," a modern society drama in two acts is a piece well worth seeing and is cleverly portrayed with Violet Mersereau in the leading role. King Baggot, one of the most popular of motion picture artists, and Jane Gail, present a comedy entitled "30-50," and it is needless to say that this will be good.

Visit the new Candy Kitchen, 1st and Lyon. Real home made candies fresh daily. Miss Grace Blanchard, prop. Formerly of Portland. J17-23

Celebrate July 5 at Jefferson.

isn't possible to get on a hill that the gas won't run to the carburetor. Now we will stop on the hill, showing you the effective brakes. You see I can hold it with either the foot or the emergency. Now you see in starting again there is no jerk or jar. This is a pressed steel cone clutch, leather faced with springs behind the leather, which makes it engage easily. We can do the same with a full load of seven passengers. Now in going down we'll go on the compression with just the least pressure on the foot break and we can hold her on to a small pace."—From contest story of George B. Rice, Los Angeles.

CITY NEWS.

Brownsville Girl— Miss Beatrice Holbrook, of Brownsville, is in the city on a visit, the guest of Miss Dorothy Lee. She is returning Miss Lee's picnic call.

Mr. Hawley Here— Congressman Willis C. Hawley was in Albany a short time Saturday night on his way to the border line of the state to meet Representative John J. Fitzgerald of New York, chairman of the committee on appropriations, who is in the state to investigate irrigation needs. It was expected that Congressman C. N. McArthur and N. J. Sinnot would leave Portland Saturday night for the same purpose. Klamath country will be visited first and then the other sections of the state will be gone over.

Beat it Here—

Bob Langley and Mr. Culloch, University of Oregon students, working in Harrisburg during the summer, were in Junction Saturday evening when a big freight train came through. Thinking a ride would be better than walking the boys swung onto the freight, but when Harrisburg was reached, their conveyance did not stop and they were carried on to Albany. Not to be outdone, however, the amateur hoboes climbed on the blind baggage of the 11:37 train and when last seen they were headed for the south.

Rexford Goes to Mill City—

Derrill Rexford, the crack high school pitcher and member of the Albany Athletics, left this morning for Mill City where he will probably work during the summer. Rexford is one of the best pitchers in the state in his class. He will play with the Mill City team.

Looking for Location—

Albert Rebillard, of North Dakota, spent Sunday looking over Albany with the view of locating here. He left for Portland this morning but may return for further investigation.

To Portland in Canoes—

Saturday afternoon Jack Dolph and Jack Montague, students of the state university, and sons of prominent Portland attorneys, were in the city on their way from Eugene to Portland in a canoe. Two other boys in another canoe accompanied them. They expected to reach Portland today.

Longest Day of the Year—

This is the longest day of the year. Tomorrow will be substantially the same length. Then the days will gradually get shorter.

W. C. T. U.—

W. C. T. U. will meet in regular session at the library at 2:30 tomorrow afternoon. Mrs. A. H. Martin's paper on "Temperance and Saloon" will be of interest to all. Mrs. Blain will give an interesting talk on W. C. T. U. work at the fairs both at San Diego and San Francisco. Members are requested to be present as some important matters are to be discussed concerning Chautauqua visitors invited to attend.

M. E. Sunday School Picnic—

All members and friends of the First M. E. Sunday school are urged to make no engagements for Tuesday, June 29, for on that day will be held the big annual picnic of this school. Anyone wishing immediate information may phone to any member of the general committee: R. K. Ohling, G. T. Hockensmith, A. M. Hammer, J. A. Howard. Further announcements will be made through the press the latter part of the week and

Celebrate July 5 at Jefferson.

Died—

Mrs. W. G. Hoover, at her home, 428 East Fifth Street, Sunday morning, June 20, 1915. The deceased was born in Indiana, July 19, 1868. With her husband and family she moved to Oregon from Kansas last December. Besides her husband she is survived by six children, all living here except a daughter, Mrs. A. J. Ellenburger, who resides at Ashland. Two sisters, Mrs. Clayton, of Airlie, and Mrs. Smith, of Albany, also survive, besides three brothers in Canada. Funeral services will be held tomorrow afternoon at 2:00 o'clock from the Menonite church, Rev. H. Smith, of the Dunkard church, conducting the services.

Married—

Fred Farlow of Albany and Miss Laura Parrish of this city were united in marriage at Salem Wednesday evening and left immediately for a visit to the Panama exposition. Both are natives of this section and everybody congratulates.—Jefferson Review.

Only 2 School Mates—

G. B. Haight, who attended the old Jefferson institute 45 years ago, was in town the first of the week, looking for oldtime friends. Uncle John Looney and Mrs. J. A. Vaughan were the only former schoolmates he could locate.—Review.

Same Boy—

The 18 year old boy who did so much stealing in a short time at Albany and was returned to the reform school the first of the week, is the same lad who robbed several Jefferson houses 12 days ago and was arrested by Constable Denson.—Review.

AUTOMOBILE MEN—

New management at Clevenger's repair shop. Expert repairing. The handy place to buy gasoline. Both phones, 212 E. First St. (Lee) Leon E. Renella, Mur. J211

A. H. Hinckson, of Eugene, is in the city on business.

Mrs. R. C. Churchill left for La-Grande yesterday.

Mrs. E. V. Bloomfield, left this morning for Centralia, Wn.

F. H. Brundage, of the Forestry Service, went to Detroit this morning on business connected with that department.

FOR RENT—Four rooms. Privilege to bath. \$8 per month. No water rent. Call at 802 Broadway St. J21-28*

Celebrate July 5 at Jefferson.

Phyllis and Irene a Tie

Just nine more voting days left. Phyllis Goins and Irene Snyder have tie votes, Mary Parker still in the lead. Be sure and get your tickets and vote, it means a free trip to San Francisco for some one; vote for your friend.

How Studebaker cars are built— Ignition

SURE steady firing at any speed

Magneto? No, sir! Better than that—the Studebaker-Wagner Electric System that's built to order for Studebaker Cars. Lots of cars, of course, are still using magnetos. But study of the leading cars at the Auto Shows disclosed that more than 52% of the high-grade cars are using a battery-ignition system.

And the reason is simply that electric-system ignition is better than the magneto. When the motor is turning fast, the magneto is satisfactory. But the minute you slow up on a grade or in city traffic the energy developed by the magneto weakens—and that is just when you need ignition energy most.

For when the motor is running at low speeds and the charge is highly compressed, it takes a hotter spark to fire it. And that's why Studebaker is using this battery-ignition system, which is not only simpler but MORE RELIABLE, because it insures maximum voltage at low speeds as well as at high speeds.

It guarantees SURE, steady firing. For the storage battery is ready to deliver the maximum voltage at all times. The motor doesn't skip or rick at low speed. And it PULLS steadily and tenaciously ALL the time the car is moving. Guarantees the CERTAINTY of operation that a man looks for in this car

-Because it's a
Studebaker

But why not come in and look over this Studebaker ignition system on the car itself. Like to show you the simple wiring system and all the details. Like to have you see the car, too, and know the convenience and the CONFIDENCE and the safety that's built into it. And we'll gladly arrange for any kind of tests you like—hills, rougher roads, anything. Will you please? Or if you can't come in, write for our booklet on the Studebaker Electric System.
