

HUERA FOLLOWERS TO BE PROSECUTED

Charge Will Be Conspiracy to Violate Neutrality in Mexican Affairs.

SOME AMERICANS TO BE INCLUDED IN LIST

Mexico City Now Said to Be Occupied by Carranzistas Under Gonzales.

(By United Press)
Washington, June 28.—Rigid prosecution of all connected with the Huerta revolutionary plot is planned by the department of justice. It is understood the arrest of Huerta and General Orozco at El Paso Sunday, charged with conspiracy to violate neutrality is the first step in the case being prepared against the alleged plotters. The evidence is to be placed before the federal grand jury of Texas immediately. Not only will the recognized leaders be prosecuted, but it is planned to include Americans who backed the proposed revolution financially and otherwise. Generals Huerta and Orozco are closely watched while at liberty on bonds to prevent their crossing the border.

Washington, June 28.—Carranzistas under General Gonzales have occupied Mexico City. This is Consul Silliman's report to the state department. Details are lacking, but Silliman said Gonzales had defeated the Zapatas forces.

El Paso, June 28.—Additional arrests are probable today in the movement of the government to nip in the bud the alleged conspiracy to launch a new revolution in Mexico and restore Huerta to power. Some men to be taken in custody are Americans, Huerta and General Orozco were arrested last night but were released on bond, and carefully guarded to prevent an attempt at escape across the border while the government agents are engaged preparing for further steps against the alleged revolutionary conspirators. Clifford Beckham of Fort Worth, is acting as special agent of the Department of Justice. Beckham said more arrests will be made, and that the men suspected are citizens of Texas. He refused to discuss reports that New York financiers who are said to have supplied funds for the new revolution were to be taken into custody. Huerta and Orozco will be arraigned before the federal commissioner Thursday.

Washington, June 28.—The state department has recalled its earlier announcement of a Carranzista victory and occupation of Mexico City, it is stated, and that an ambiguous message from Consul Silliman was misread, and that it appeared Zapatas, defending the capital, had been victorious.

Washington, June 28.—Early reports of a Zapata victory at Mexico City are confirmed in dispatches to the state department. The courier who left the capital June 23 has just reached Vera Cruz, Consul Silliman reported. He stated that 25,000 Zapatas soldiers were in the capital. The telephone lines to Vera Cruz were taken by General Zapata, and all the banks and stores of Mexico City closed. The situation is admittedly serious. Consul Canada reported the dispatch of reinforcements to the capital by Carranza.

SANDIEGO PEOPLE ON THEIR WAY TO SEATTLE

Came Up the Coast Through Eureka, Hitting Some Rough Trails.

An Overland car with Sandiego people getting away from the most beautiful exposition grounds in the world, for a trip to Seattle, was in front of the St. Francis this morning, continuing the journey northward. The party consisted of Dr. Andrew Eckhorn, wife and two children, Eleanor and Andrew. They made the trip yesterday from Roseburg, 130 miles, coming up from Grants Pass, having a pretty rough road experience. This side of Grants Pass the roads were pretty fair, but the other side they had a hard time making 10 miles an hour, in some places finding little better than a trail. They spent the night at the St. Francis and continued northward at 9 o'clock.

"THE STORY BEAUTIFUL" A CHAUTAUQUA MASTERPIECE

"The Story Beautiful" is a classic from the standpoint of art, oratory and musical attainments, and yet, because of its strong appeal to all classes who will hear and see it, this number on the coming assembly deserves to be called a popular entertainment. Because of its uniqueness it is difficult to give in a few words an adequate conception of it. One of the most brilliant, powerful and dramatic speakers, Father Patrick J. MacCorry, of St. Mary's Cathedral, Wichita, Kansas, has woven a thrilling lecture about a series of unusual views and reproductions of famous paintings. Many of the paintings shown are the master-painters of the world and are hidden far from the eyes of the curious. How Father MacCorry secured them is not a part of this story, but it may be said that there are few who could secure permission to copy them; and the coloring of the slides is wonderfully well done. They are as beautiful as the original and far above any slides commonly shown. While the pictures are being shown Father MacCorry gives his lecture. No orator has a more musical tone or more dramatic intonation, and while he speaks, a single ray of light reveals his features against a black velvet curtain, the speaker as well as the picture being shown, which is an exclusive feature with this lecturer.

CHAUTAUQUA CAMPAIGN WAS BEGUN TODAY

Committee Have Been Covering City For Sale of Season Tickets.

The big chautauqua committee this morning took breakfast at the St. Francis hotel and then started out on a canvass for the sale of tickets for the coming chautauqua assembly. During the day they have been covering the city systematically, with a good sale; but the exact result is not yet known. Tomorrow morning the committee will have another breakfast at the St. Francis, when reports will be made, and if the canvass is not completed it will be continued. The plan was, though, to finish up if possible, this evening. Albany's chautauqua is one of its best assets, and our people should support it heartily and liberally.

JUNCTION CITY HUMBLER BY ALBANY ATHLETICS

Small Pitches Great Ball and Evens Up For Defeat of Early in Season.

Revenge was sweet to the Albany Athletics yesterday when they trounced the combined Junction City-Harrisburg baseball team at Athletic Park by the score of 6 to 1. Jensen, their much touted twirler, was not as strong as on the former occasion when he let Albany down with an 8 to 5 score. On the other hand, Manager Small was working fine for the locals and held his opponents to four bingles, three of which should have been cut off by the fielders. It was a corking good game from the start and looked like Junction was going to duplicate their former feat for awhile. They got a run over in the first inning when five men faced Small, but after that they went out in one, two, three, order. Only 28 men were credited with times at bat on the score sheet. Albany's first score came in the sixth when Githens singled, went to second when Duncan walked and scored on Small's single.

In the seventh Jensen had his troubles and Albany brought in five runs. Every man on the team faced him and five hits were made. Githens hit had for Albany all through the game, getting three singles out of 5 trips to the plate. Luck favored Junction in keeping the score down, for in the third and fourth innings the bases were full and only needed a healthy swat to chase in a few extras. Summary—Stolen bases, Githens 3 Small 2. Double plays, Ryals to Hecker to Duncan. Hits off Jensen, 10; off Small, 4. Struck out by Jensen, 6; by Small, 13. Hit by pitched ball, Jensen, 2. Bases on balls, off Jensen, 1; Jackson, 2; off Small, 1. Umpire, Bey.

G. CO. BEST BIG GUN SHOOTERS

Albany Company Carried Off the Honors at Fort Stevens Shooting With 10-Inch Gun.

AT DISTANCE OF SIX MILES DID FINE WORK

Not a Man Went to the Guard House, and Encampment Was a Smooth One.

Winning first place in the big gun shooting at Ft. Stevens the fifty-five members of 5th Co., who went to Ft. Stevens ten days ago for their summer's encampment with the regiment, returned last night very jubilant over their victory. The shooting is done with a ten inch gun at a mark about six miles away, requiring judgment and skill. Most of the members had secured the experience a year ago. There were eight company's competing. Each member of the company shoots, the average record counting for the company. In this Albany lead, with Ashland second. While there, they had plenty of drillings, but the weather was good for it, never sultry, and it was not uncomfortable at any time. The Albany men made a record for good behavior, not a man going to the guard house, something that is rather unusual. Capt. Powell is specially proud of the splendid record made by the company, and the men have just as good words for their captain.

Returns to Home—
Mrs. Frank Blodgett returned to her home near Lomo, Mont., yesterday, after visiting relatives in this city.

ONE YEAR AGO TODAY BIG FLAME STARTED

Not of a Student Has Sent Eleven Nations to War in Great Fight.

One year ago today, the Austrian Archduke, Francis Ferdinand, and his wife were shot and killed in the Bosnian town of Serajevo by Garvio Princip. It was the act of a poor student, which ultimately resulted in 11 nations going to war. These nations are, on one hand, Great Britain, France, Russia, Serbia, Japan, Belgium, Italy and Montenegro, and, on the other, Germany, Austria and Turkey. The war to date, according to conservative estimates compiled from the best available reports, has caused a loss to the various belligerents of more than 6,000,000 men, dead, wounded and prisoners, and more than 500 ships. Of these, about 120 were war vessels. It is 11 months tomorrow since Austria declared war on Serbia.

Spending a day on top of Mary's Peak was the experience of Fred Dohmert and Henry Vollstedt, of the First National Bank, and Hiram Torbet of the First Savings Bank. They went to the foot of the peak in an auto, and from there walked up to the top, where they drank in the scenery of the surrounding country, saw the surf beating on the shore westward, saw the Coast Range stretching out north and south, the Cascades to the East, and between, the beautiful Willamette valley, with the river winding and widening down from the frozen gorges, softly calling to the sea, and lay and baked in the sun until their faces looked like Indians. They arrived home in the evening full of ozone and mountain peak ideas.

IMPORTANT CASE FILED AT SALEM

Five Albany Merchants and Linn Co. Court File Complaint with R. R. Commission.

WOULD COMPEL PHYSICAL CONNECTION OF O. E. & S. P.

Favorable Decision Would Be Great Convenience to Local Shippers.

A case filed Friday with the Etate Railway Commission by Linn county and five Albany shipping firms, will, if decided in their favor, prove a big convenience to shippers here and in others points in the Willamette valley. The Linn county court, the Albany Sand & Gravel company, Murphy's Feed Store, the Albany Mill & Elevator Co., Albany Commission Co., and Cameron's Planing Mill have filed a complaint and a request for a hearing with the railway commission to compel the Southern Pacific and its subsidiary line, the Corvallis & Eastern railway to make a physical connection with the Oregon Electric Ry. at this city. If, after the hearing, the railway commission orders the connections to be made, Albany will be the first city in Oregon, outside of Portland to secure this convenience. Two previous cases have been before the commission to force a similar connection, but so far there has been no order granting the request. In March, 1914, three Albany men endeavored to get the commission to order the Southern Pacific and the Oregon Electric to connect their tracks here so that freight could be transferred from one track to the other, but there was not sufficient evidence of existing business to cause the commission to grant the request. Last November the second request was filed with the commission by the Mays-Goodle Brick Co., of Donald, asking for the transfer of its brick from the O. E. to the S. P. lines at Salem. The company had the contract for furnishing brick to a school building at Silverton, and alleged that because the roads do not connect at Salem was unable to ship to Silverton without heavy transfer cost. The Albany shippers are hopeful for the granting of this application for it is backed by the county and five heavy shippers of this city. Their case seems to have the best chance of any yet filed, and if it is granted renewed efforts will be made by Salem and Eugene to force similar connections at these places. Before leaving for Salem this morning F. J. Miller, one of the railway commission, said that he could not make any prediction on the case, for that would be rendering his judgment before the hearing was held. "The case will be decided upon its merits," he said. "The work before the commission is not like cases in court, for we are not bound to precedent. Every case must stand on its own merits. There must be evidence showing that the connection is a necessity and there is the business to justify it. The case of the Salem shippers will be decided soon, and the Albany complaint will be given a hearing at an early date." Hill and Marks are attorneys for the shippers and the county. It is known that the S. P. Co. will fight the order for their lines cover more mileage in Oregon and have been established longer than have the Oregon Electrics. It is thought the latter would favor the interchange of freight cars at this city.
