Crops Fine—

George Melvin Miller has returned from a trip through portions of Linn and Lane Counties. Mr. Miller states that he has never seen the crops looking so good as they look now. A great deal of clover is being raised on land that heretofore Mr. Miller believed unproductive. He says that Linn county is now growing a large crop of clover.—*Eugene Register.*

Only Two More Days to Win trip to Panama Fair

Miss Mary Parker maintains a lead of about 2000 votes in the Fred Dawson Rexall Store contest for the trip to San Francisco. Miss Myrtle Jones leads in the rural districts. There is still time for the Misses Eberling, Snyder, Goins or Hinckley and a hard day's work would put any of them in the place for the trip. The leaders should not be too confident, for it is hard to tell what is being held back.

Return of the Kenworths—

The popular Kenworthy Players will return to the Globe on Wednesday for a four days' engagement. This company made a decided hit with the theatre patrons of the city on their former engagement and it is safe to predict that the theatre will be greeted with capacity houses on their return as the plays offered by them are certainly worth more than the admission asked. On Wednesday the big three act comedy "A Matrimonial Tangle" will be the offering.

Picnic July 5—

There will be a basket picnic at Hulbert's grove southwest of town, Monday, July 5.

A Whopper—

This one is 8 1-4 by 7 1-8 inches, and is perfect in shape, a single egg. It was laid by a barred Plymouth Rock, and will be blown and kept by Mr. Skaar as a masterpiece of eggology.

Telephone People Picnicked—

The Home Telephone people of Albany and the Independent company's people of Corvallis, yesterday held a union picnic at Granger, about half way between the cities. About fifty were present. From a Sunday Sermon.

"The grasshopper shall be a burden." The grasshopper represents the little things of life. We rise and fall like a barometer. We cover the world with our moods. Our ability to bear burdens depends upon our body, our mind, and our soul.

Age is not a matter of years. Young people are sometimes very old. Some days trifles become monsters. Some days everything is upside down.

Weariness becomes a disease. Petulance easily grows into a habit.

On grasshopper days we lose control of ourselves and create storms. Some days we need a curb bit. Our prayers should be according to individual cases.

Every human being has a breaking point. Silence is a safety measure. Do nothing final on a grasshopper day.

Inflating little things may spoil a whole day. It is foolish to raise a tempest over little things.

The reason the grasshopper is a burden is that there is not enough of Christ in our lives.

HOW SADDLERY INDUSTRY IS BENEFITTING BY WAR

San Francisco, June 28.—The twenty-seventh annual convention of the Wholesale Saddlery association convened today at the Inside Inn on the grounds of the Panama Pacific International Exposition. More than 500 delegates attended. Of all the non-military industries of the country the saddlery business is perhaps the greatest beneficiary of the great European war. The demand has steadily exceeded the supply since the war began and the manufacturers are now recovering from the slump which struck their business when the automobile became the rage. The convention will adjourn July 2nd.
