Established in 1865.

FRIDAY, JULY 23, 1915.

SUBMARINE A POWER.

In the August American Magazine Herbert Quick writes an article full of fresh ideas entitled "The Submarine as a Peacemaker." He says that sea power has ruled the world in the past but that sea power has been ended by the submarine. He says that the submarine makes the Monroe Doctrine self-executing for every nation. Following is an extract from his article:

"The future history of the world will be far different from what it would otherwise have been, because of the submarine. The mastership of the seas has passed from every nation. Defense is made perfectly practicable against overseas expeditions everywhere. Japan and Great Britain are forever safe from invasion, once their submarine forces are fully developed, but they are capable of being starved by their enemies. We of continental situation are in better case than ever before as against transmarine foes, actua or potential.

"The submarine is itself a mechanical and scientific Monroe Doctrine which is self-executing. Germany may as well abandon forever any hope of transplanting her flag to other lands which must be reached by sea unless they are in too backward a state to take advantage of this new invention and are unreluctant by a strong power.

"The vision of the world among the nations must stand as it is, save as it is affected by the present war. The submarine is an effective action to give title of all nations to the colonies. It robs Great Britain of the command of the seas, but it confirms her in what she has gained by it—unless her colonies revolt and use the submarine to defend their shores. It cuts off North America from any possible war with South America, as soon as we and the South American nations provide ourselves with the new weapon of defense. It gives us only two possible enemies, with whom we can wage real war—Canada and Mexico. It makes it impossible for Canada to receive aid from the mother country in such a case, assuming the possession on our part of the hundreds and hundreds of submarines which the situation will soon call for. It coops China, India, and Russia and the rest of the Eurasian continent as effectually so far as war is concerned, as before the invention of the mariner's compass. It makes the Australasian Powers safe from the yellows and browns. It carries out over all the seas a stalemate as complete as that which exists in the trenches in France, a stalemate in which real naval battles are impossible, in which destructive war on commerce is raised to the nth power, and in which world intercourse must be based on peace, or so far abandoned as to make the very existence of the insular commercial peoples hazardous. What will congress and the department of the navy do about an adequate equipment of submarines?"

MISFITS

It may take some negotiations but U. S. and K. W. will get together all right, even though a little bit off.

The situation is just this: Don't do it again.

Now the discovery is made that there is danger of infection in swimming pools. Funny that we older people who used to nearly live in the water never got infected.

Anything that will show up the gossip deserves a hearty support.

It should take every seat in that auditorium for the Bryan address.

Hearing Bryan at first hand may make some things clearer.

On Bryan day Albany will be the hub for certain.

Several big steamship companies have been financially busted by the war. That's an international crime.

This used to be called skiddoo day. It happens to be both that and Friday, certainly an omen of luck. Will the war end by night?

There are many ways of obtaining fame. A French soldier has been wounded sixty-five times since the war began and expects to go back to the trenches for some more. Look out for the sixty-sixth time.

How quick a bee is to buzz when a mayor of a big city gets a big ren. Mayor Thompson, of Chicago, stopped the strike, and wants to pres. of U. S.

China is looking to Or. for instruction in standardizing her schools. We lead the world.

Don't forget that the hot weather is giving Or. a golden harvest.

CLAIRVOYANT AND PALMIST.

Madame LaMar, the gifted clairvoyant, who has been in Albany for the last three months, is located at 106 4th street, corner of Lyons, where she can be consulted daily, from 10 a. m. until 9 p. m. The advice she gives you is accurate and can be depended upon whether it concerns business, investments, sales, lawsuits, changes in location, social, domestic or love affairs. If you are worried, sick or run down, he will tell you how to regain health, strength and success. Don't fail to consult this gifted woman. Remember the address, 106 Fourth St., cor. Lyons. j13t
