Established in 1865.

TUESDAY, AUGUST 3, 1915

PRESIDENT WILSON SAID.

"It is a splendid thing to be part of a great wide awake nation; it is a splendid thing to know that your own strength is infinitely multiplied by the strength of other men who love the country; it is a splendid thing to feel that the wholesome blood of a great country can be united in a common purpose, and that by frankly looking one another in the face and taking counsel with one another prejudices will drop away and handsome understandings will arise and a universal spirit of service will be engendered, and with this increased sense of community of purpose will come a vastly enhanced individual power of achievement, for we will be elevated by the whole mass, of which we constitute a part."

So spoke the president of the United States in expressing his realization and conception of the great national organization, the Chamber of Commerce of the United States of America, assembled in convention at Washington early in February.

SAFE ICE CREAM.

With the coming of summer there is, naturally, a largely increased consumption of ice products. Conspicuous among these is that ever delightful commodity, ice cream. Unfortunately, however, there are as many formulas for the preparation of this delicious and highly edible substance as there are manufacturers who make it. A note in the current issue of the Bulletin of the North Dakota Agricultural Experiment Station calls attention to a few of the modifications extant in that state:

Ice creams in this state are supposed to contain 14 per cent of butter-fat. This corresponds with the standard in a majority of other states. There are those, however, who furnish a product containing from 6 to 10 per cent of butter-fat, using a thickener, gelatin, gum, rennet, etc., for the purpose of giving the cream the appearance of richness. This is a fraud and works a hardship on the man who is endeavoring to produce a good article. On the other hand, there are those who do not take sufficient interest to know what they are doing or are not posted as to the fat content which they use and so are giving to the public ice cream containing from 18 to 22 per cent of butter-fat. Such ice cream is too rich and is not as satisfactory as that containing approximately 14 per cent.

If fruit is used, then the per cent of butter-fat is slightly reduced to 12 per cent.

Pure ice cream should contain no gelatin, but if gelatin is used then the product must be labeled, sold or dispensed as gelatin ice cream.

A great deal is said about the necessity of gelatin. The writer has not been able to follow all the arguments in favor of gelatin, but in a number of instances is convinced that the use of gelatin is for the purpose of selling more air at ice cream prices.

If you can work in enough air so as to convert one gallon of ice cream into two gallons, there is a big profit, and that is one reason for using gelatin.

The question of the preparation of a satisfactory ice cream, according to The Journal of the American Medical Association, involves the consideration of numerous factors, including not only the type of milk or cream which forms the basis, but also the use of thickeners and the various methods of preparation. The possible entrance of numerous germs must be considered. Physicians should interest themselves, and make sure that the material offered for their own consumption, and for that of their patients, is in accord with the highest standards set for such products.

WHO PAYS?

MISFITS

This is such a day of organizations that even the hay fever people have a national organization, with champion sneezers as presidents.

People universally said that Mr. Bryan made a mistake when he resigned at a critical time the position of secretary of state.

Summer is a season of change, from the weather to the people.

A submarine would have hard picking up the Will.

There'd be nothing but innocent launches to torpedo these days; but the Albany flotilla would unite to the limit.

The jingoists are not jingoing numerously back east.

There is a foundation for a fine park at the site of the Central school building. Already some of the trees are big enough for a picnic.

An exchange says that the only real reason for swearing is taxes.

Boost everything Albanyward as long as there is any kind of a show for it.

Optimism is all right but be careful about fish bones.

We are liable to have to lick both Germany and England.

Really there should be an easy adjustment of matters with both countries. The proper way is for U. S. to keep out of things as much as possible. European countries are mad with passion, boiling over, rantankerous, and they are going to do everything possible to advance their interests, and cannot be expected to do things very cool-headedly.

WHO PAYS?

Twin Tires?—No
One's a Goodyear as It Might Be
The Other Costs Us \$1,635,000 More

This is to prove that you can't judge tires by looks.

Here are two Goodyear tires, seemingly identical. But one is built like many of its rivals. Goodyear extras are omitted. The other has those hidden values. And those unseen extras, on this year's output, will cost us \$1,635,000. This year's betterments alone add to our cost \$500,000 yearly. Yet our 1915 price reduction saves our users about five million dollars.

No Price Excuse

This is not a price excuse. Goodyear prices have been fairly racing down. Our late

with the Goodyear, because of our matchless output. None does. Goodyear excels all other tires in at least five important ways.

You Deserve It

You deserve the Goodyear quality when you buy a tire. You deserve Fortified Tires, with the No-Rim-Cut feature, the "On-Air" cure, our extra-strong fabric, our number of plies. You deserve in anti-skids our All-Weather tread, tough, double-thick and resilient.

These things have brought Goodyear the largest sale in the world. They are saving our users millions of dollars yearly.

They are at your command. Any dealer, if you ask him, will supply you Goodyear tires. (cont)

The Lives of Your Loved Ones

may be depending upon the proper medicines dispensed rightly. It is a poor time for you to be careless when your prescriptions are filled.

You can't afford to take chances. This is a matter worthy of your serious thought.

We take pride in saying that a prescription never leaves our store unless it is properly and accurately filled.

We fill a prescription just as it is written or not at all. Bring them to us.
