City News

Ex. Gov. Slaton Passed—

A distinguished party passing through Albany last evening on the Shasta Limited were Ex-Governor and Mrs. Slaton, of Atlanta, Ga. Gov. Slaton became famous because of his pardon of Leo Frank, an act of justice that commends Gov. Slaton to the people of the country generally, and everywhere he has been commended for the deed.

Mrs. Flo's Successor—

Miss Jane Edith Brown, recently of Lincoln College, Lincoln, Ill., has been elected to succeed Mrs. Flo, in charge of the vocal department of the college.

Received a Picture—

The Democrat has a new picture in its art gallery, one of Mr. Bryan, made by Ray Smith, of the Globe, recently shown in front of the Globe during Bryan day.

State Firemen's Tournament—

A state firemen's tournament is to be held at Oregon City on Labor Day, Sept. 6. Will Albany have a team there? Corvallis has already begun arrangements to have a crack company on hand prepared to win everything in sight. Years ago Albany had a hose team that won everything in sight, a company of sprinters never surpassed in the Northwest.

Equal to the Occasion—

A Corvallis man met another man and told him a remarkable fish story, far ahead of what the law allows. The man said: "Do you know that I am the game warden?" Equal to the occasion, the other fellow remarked: "Do you know that I am the biggest liar in Oregon?" The Corvallis Gazette-Times is responsible for this.

Got Monmouth Contract—

Snook & Traver, of Salem, who have done some work in Albany, and a good deal of O. A. C. work, have received the contract for the erection of a new building for Monmouth Normal. The price is \$35,588. It will be two stories with a full basement.

Five Bridge Leaps and Falls—

The records of falls and jumps from the main part of the steel bridge into the river, as far as can now be recalled, is five, four men and one woman. All of them escaped. The four others were attempts at suicide. One was an erratic fellow hanging around town, another a hobo, another a Benton county farmer, the other an Albany girl who had become despondent, the fifth that of last evening. Besides these, when the bridge was being built an intoxicated man fell off the other end upon the ground and was killed.

Will Go to Breitenbush—

Ton Riley, the popular conductor on the C. & E., and Mrs. Riley, will leave Monday for Breitenbush on their annual vacation.

On Way to Kansas—

Miss Zella Wooster left yesterday over the O.-W. R. & N. for Newton, Kansas, where she will visit relatives.

Had the Laugh on the Cops—

Last night two well-known local boys made the statement that they were going to "Beat the S. P. to Eugene." Two of the night police got wind of the expedition and proceeded to the depot to land the boys as vagrants. However, the boys were too smooth, and when No. 13 pulled away from the station waved from the top of a coach to the police and gave them the laugh. However, this stunt is not recommended as a form of amusement or as a means of getting the laugh on the police.

Prominent Lumber Men—

Phillip Buchner, president of the Portland Lumber Co., R. P. Noble, H. P. Buchner, and Geo. R. Sailor, all prominent timber men, were registered at the Albany last night. They drove to the city in a big Pierce-Arrow and left this morning in the direction of Lebanon, probably on a business trip connected with a timber deal.

MOVEMENT BEGUN FOR A PAN-AMERICAN DOCTRINE

Proposed by G. A. R. to Have It Take the Place of the Monroe Doctrine.

Washington, D. C., Aug. 5.—A Pan American Doctrine, to supersede the Monroe Doctrine, which, if accepted, would form an offensive and defensive alliance between the United States and every republic of South and Central America, and between these republics, will be advocated at the conference on National Defense, to be held in Washington, October 4-7, under the auspices of the National Defense League, immediately following the Grand Army of the Republic encampment.

The new doctrine, suggested by Winfield Jones, secretary and one of the organizers in 1913 of the National Defense League, if put into effect, would form a political and military solidarity of the Western Hemisphere.

While the Monroe Doctrine forbids any European power from acquiring territory in the Western Hemisphere it does not go far enough in the changed world conditions caused by the European war, in that it does not provide for naval and military assistance from any or all of the Pan American republics in event the United States should be forced to fight European or Asiatic aggression, in the opinion of Secretary Jones.

"If the United States should be forced in the future to pour out blood and treasure in maintaining the Monroe Doctrine it would be equitable that all Pan American countries engage to assist the United States with their full naval and military power. The interest of one is the interest of all in maintaining the political integrity of a single one of these republics," declared Secretary Jones in an interview here today.

"The new Pan American Doctrine would expand the Monroe Doctrine far beyond its original meaning, would supersede it altogether for something better and stronger."

"An offensive and defensive alliance of all the Pan American republics with the United States, and between themselves, would enormously increase the resisting force of the countries of the Western Hemisphere against a foe from any quarter."

"This alliance would at one stroke practically double the military and naval power of the United States, even in our present miserable state of unpreparedness."

"The combined naval and military

power of the countries of the Western Hemisphere is strong enough to win a war against any possible coalition of the other powers of the world.

"The military and naval strength of all the South and Central American republics, according to the latest government statistics available: Armies, peace strength, 1,995,199; war strength, 1,995,732; unorganized but of military age, 5,374,076. Navies, 59 ships, and 27,836 men."

"As allies of the United States and of themselves, the South and Central American countries could bring, in a war for the defense of any country of the Western Hemisphere, nearly 100 warships, and 28,000 seamen, and a military strength of more than 7,000,000 men when all of service age were under arms."
