**The Year Round Conven-

Iron Is Most Appreciated
in Summer**

If you already enjoy the benefits of Electric light in your home, do not let another week pass without having an Electric Flat Iron. Think of having the whole week's ironing done in perfect comfort, no matter how hot the day for just a few cents and without any of the work and worry of the old-fashioned way. You may iron out on the porch or in any cool spot about the house if you use an Electric Iron. Simply attach it to the most convenient Electric Light Socket.

If by chance your home is not wired for Electric Light, there is no better time than this summer to install this great convenience. Shall we send a representative to talk the matter over or will you drop in at the office?

the final day of the institute, will be heard Assistant State Superintendent F. K. Wells, Pres. J. H. Ackerman, of the Normal school and Prof. Pitman, of the same school, and L. P. Harrington, State Industrial field worker.
