To the Business Men of Albany

When a good salesman goes out after business, he first puts on a clean collar and gets his shoes shined. Then he looks like more business—and he's made a flying start toward getting it.

Likewise, a community can go after more business—and get it. The "clean collar and shiny shoes" of this town are the well-painted stores, the bright, cheery homes, the fresh, clean-looking buildings. The part paint plays in building up local pride cannot be put in figures—but its good effects are recorded on the local merchants' sale sheets. Buy good paint. We recommend and sell

and pure linseed oil. We know of nothing else so satisfactory, so lasting and cheap in the long run. We sell all other paint necessities as well. Get in touch with us today.

SERIES OF SCRIPTURAL LESSONS IN TENT MEETINGS

An interesting series of scriptural lectures will begin tonight at the cotton tabernacle on Seventh and Ferry street. Evangelists Dickson and Meikeljohn will have charge of the work. They promise to discuss various present day topics in the light of God's word. The subject for tonight will be "The Next World Empire. Who next will rule the world, Germany, the Allies, or who? Tomorrow night they will speak on "National Failures," showing that the Word of God clearly describes the history of the nations many times thousands of

years in advance.

It is planned to make these lectures educational as well as interesting. Certainly in a time when confidence seems waning, when infidelity in waves is sweeping over the country, when popular theology is honey-combed with materialism, certainly it seems that some one should step forward and, placing the trumpet to his lips, summon the people to the scriptures. It is the hope of those conducting the campaign that such a faith might be established in the Bible as infidelity shall not be able to undermine nor time shake.

The pavilion is comfortably arranged, with good lights, seats and the like. Special music will add pleasure to the study hour. A successful campaign is anticipated.

A. J. MEIKELJOHN.

"That Was An Easy Ironing"---

Electric washing and ironing certainly make light of the washday bugaboo. Electricity washes the clothes better and in a fraction of the time required by the tub-and-rub way.

You can then give the washing plenty of time to dry and sun thoroughly, for with an electric iron it only takes a little while to do the ironing.

And So with All the Housework--- Electricity Does It Easier

Besides the electric washing machine and electric iron, the electric cleaner has become a household necessity. In hot weather electric fans make life worth living. Electric cooking appliances are preferred by the careful housewife for their convenience and economy.
