WEDNESDAY, AUGUST 25, 1915.

KEEP IT FRESH.

Those in charge of the Oregon exhibit at the fair should be backed up in their appeal for fresh things for the exhibit. The Oregon exhibit has already attracted wide attention and many have come up this way because of it. It is a big thing for the state, and we should not sit down now; but keep at the work of furnishing things to be seen and admired. Here is the appeal:

If Oregon is to keep the favorable reputation enjoyed thus far at the Exposition, much new grains, grasses, fruits and vegetables must be forthcoming during the next three months. The apples of last season—now a year old—have held up so remarkably that the Californians are amazed, but with the tremendous quantity of fresh fruit of all kinds now being shown by California, it will be necessary for Oregon to get into the game with better material. The Oregon Commission will pay the freight or expressage on all shipments sent to the commission for display purpose. In the case of fruit, a two box shipment at two different items is preferred, but a one box shipment at two different times is a necessity, if it is desired to enter the fruit in competition for awards. Anyone with any sort of fruit fit for display purpose may send it here in the certainty that it will be shown in the best place possible and with the senders name and address conspicuously displayed thereon. If the fruit is nicely packed and would be a credit in competition with fruit from other sections it will be entered for judgment by the jury of awards and then placed on display. All shipments of fruit, grains, grasses, vegetables, etc., should be well packed and marked "Oregon Commission, Oregon Building, Panama Pacific Exposition, San Francisco." Oregon has the products of all kinds that will eclipse anything seen on display here—it is merely a matter of getting it to the exposition. It would seem that those who raise what they consider to be superior products would be glad to send a small shipment just to show the world what they can do in old Oregon. A certificate of award from the greatest Exposition the world has ever seen would make a pleasing adornment for the wall of any grower's home or office.

When the facts are learned it will be found that there was nothing unfriendly in the sinking of the Arabic so far as the U. S. was concerned.

The jingoists and their friends will continue to rattle over everything that can be construed into unfriendliness.

The man who has boys of his own isn't going to be hot headed over every little thing that has occurred.

The man who lives in the U. S. enjoys its protection and the blessings of its flag and then shouts for some other country in preference is a traitor of the deepest dye.

These modern days any country can keep out of war without sacrificing honor.

The U. S. should set the world a Christian example by keeping out of militarism.

It is with nations as with individuals. One can be everlastingly fighting everything, or never be in a fight.

But look out for the man who always has a revolver in his pocket.

If these ex-presidents knew as much when presidents as when the retire there would be something doing.

Now we know why they always picture Mr. Taft with a grin.

Japan formally declared war on Germany a year ago. The fact would have been forgotten but for its narrations in one of the boxes that appear in the papers these days.

People keep saying: "I'm mighty glad Wilson is president."

Are you going deer hunting? If so you need a good field glass. We have some especially made for deer hunting. F. M. French & Son.

Small-Size Tires Made Bigger

Tires 30x3 1/2 — Also 30x3

20% More Capacity
30% More Rubber
In Side Walls
\$317,000 Better**\$317,000 Better**

These improvements will cost us this year \$317,000 extra.

Yet this year also brought to Goodyear users an enormous price reduction, making 45 per cent in two years.

Note what Goodyear users get this year on tires in smaller sizes.

We have added 20 per cent to the air capacity. That adds immensely to your riding comfort, combats the blowouts and overloading that came to smaller tires.

We have added 30 per cent to the rubber in the side walls, where constant bending breaks so many tires.

We have made new molds—changed the whole design—because of newly-discovered ways to add to the tires' endurance.

Note that Goodyear tires, as made before, won top place in Tiredom. Never has another tire won so many users.

It is these tires—proved the best tires built—which we have bettered this year in every way that experts know.

Get these super-tires. Our mammoth output makes this extra value possible. Don't take smaller, thinner tires.
