WIRELESS POSSIBILITIES.

The past few years has seen a series of marvels that have opened the eyes of our people, one after another, until we hardly marvel any more. The present one of wireless telephony has been anticipated, and yet, it's wonderful success is surprising people. That it is possible to talk through the air 4000 miles, perhaps eventually around the globe is beyond comprehension. It indicates that in the air above us there is a means of transmitting sound instantaneously that has hardly been appreciated. If the work is consummated it will mean the doing away with wires entirely. May it not also mean that some day every man may have his own machine for taking telephone messages and sending them. Then consider the possibilities of operation, beyond our comprehension. With the privileges will also come disadvantages, suggesting eavesdropping without limit and all manner of complications, unless the genius of man is sufficient to avoid this.

MR. WILSON AND MRS. GALT.

The president very properly waited the traditional year. Every man needs a help-mate closer than any fellow man can get in the battles of life, and the president particularly, with all the loads he has to carry needs some one by his side who can help him bear the big load he is carrying these days. The fact that his daughters are satisfied with his choice is suggestive of his wisdom. Situations differ. There are times when second marriages may well be avoided; but people generally will favor the present movement of the chief executive in securing one to go with him who is closer than a private secretary.

OUR HELPLESSNESS.

Benton Courier: In 1890 this country appropriated \$20,000,000 for the navy. In 1900 it had jumped to \$48,000,000. Two years later it had almost doubled, \$120,000,000. Last year the appropriations were \$140,000,000.

Either the interests who are clamoring for better preparation are lying about our defense conditions or the vast sums appropriated for defense are grafted and stolen.

In 1890 when the navy appropriation was but twenty millions there was no jingo scare of unpreparedness, now with seven times this appropriation with the European countries being shot to Hades every hour, we find that we are helpless as a paralytic and that \$140,000,000 won't buy a wheeled chair for the invalid.

If the government built its own war ships and made its own war material, this cry wouldn't go up.

It's profits more than preparedness or patriotism.

MISFITS

A paper down the Columbia has the temerity to announce that Col. Hofer may be a candidate for gov. at the next el.

A proposed thrift campaign is a good one, one to create confidence, all that this side of the globe needs. We have all the goods.

Corvallis is trying to put some pep into its com. club. Make a valley chain of it.

Wheat ascending again means more chink in the pockets. Just set it going with a chunk of confidence and there will be no question as to the result.

A good rule is to let go when a reasonable price is reached. No telling when a tumble will come in prices, sometimes a humpty-dumpty.

After a long balk the Balkans are about to dive into the breakers.

When the allies want some more money what will our financiers do? Half a billion in an European war is like vapor in the sunshine.

After serious contemplation Misfits has concluded not to try for the Loganberry poetry prize. The rhythm won't come.

Mrs. Galt is very happy. She says so. It isn't every widow who can marry the chief executive of the biggest nation in the world.

A girl qualified to do all kinds of clerical work is willing to do chambermaid work, cook or any old thing as a starter. Sounds as if she would make a mighty good wife.
