Albany Odd Fellows Live Bunch.

Jefferson Review: About 60 I. O. O. F. members came down from Albany Saturday evening, and they were sure a live bunch. After conferring the first degree upon half a dozen candidates they pulled off all kinds

of stunts. Geo. Wright, I. L. Swan, Al Gordon and a few more of those Albany boys are "bad medicine" for the man with no fun in him. The visitors all seemed to enjoy the evening, particularly the banquet, and promised to come again. There is fraternity among all Odd Fellows, but the bond between the Albany and Jefferson members is particularly strong and is constantly being made more so by these fraternal visits which can not be of too frequent occurrence.

CITY NEWS

Big German Victory—

The Eugene cannery started work to can 6000 gallons of sour kraut. The

cabbage has to be cured for three weeks before it is ready to can. The vats of the cannery are capable of holding but 3000 gallons at a time and the kraut will be canned in two shifts. About 1000 gallons is prepared at the present time and twelve girls started canning the kraut this morning.—Guard.

Monday Night Bible Class—

7:30 o'clock. The lesson tonight is concerning the division of the nations—Gen. 10. This study of the nations is most interesting. The recent discoveries of science prove to us beyond a doubt that the Genesis record is absolutely trustworthy. In our study of the Old Testament, we are going to trace each nation that presents itself in the Holy Record, to its foundation in the sons of Noah, and it is necessary that we get a good grasp of this tenth chapter of Gene-

UNCLE SAM'S ENORMOUS WEALTH IN N. W. TIMBER

Billions of Dollars Worth Is Bottled Up in Our National Forests.

Portland, Nov. 8.—Forest service officials have just completed "an extensive timber reconnaissance" of the National Forests of Oregon, Washington and Alaska, and the figures assembled as a result of this reconnaissance give the total stand of government timber as 297,643,000,000 feet.

According to the compilation, the largest areas of young timber in any of the National Forests are found on the Siskiyou Forest along the Oregon Coast, while the most extensive and unbroken bodies of old timber are found on the Olympic Forest in western Washington. The Cascade and Umpqua Forests, both in Oregon on the west slope of the Cascade range, lead in the amount of Douglas fir; while the Olympic Forest in western Washington leads in the amount of amabilis fir and western red cedar. Three of the National Forests in the Blue Mountains of Oregon each have in the neighborhood of five billion feet of western yellow pine; the greatest amount of sugar pine is found on the Siskiyou Forest in southwestern Oregon.

Of the Alaska forests, the Tongass contains 70 billion feet and the Chignik 8 billion, both forests made up mostly of western hemlock and Sitka spruce. Of the forests of Washington and Oregon, the Olympic leads with 133 billion feet as its total, while

the Gospel lessons of the chapter will also be brought out. The outlines of the Salem lectures on The Fundamentals of Our Faith, will be given out tonight.

S. P. Winners—

The Southern Pacific has closed its campaign in personal solicitation of business, giving prizes of \$25 to \$15 in each division. In the Portland division the winners were C. F. Stretch, of Newberg; Bert Turbow, of Middleton and L. J. Speck, of Portland.

Regardless of Patronage—

Talk of heroes on the battlefield, that's nothing compared with Editor Tip Humphrey, of the Jefferson Review. In 23 years he has received just \$1.50 patronage from Judge Bushey, but in the face of his colossal deficit in patronage he commends Bushey's administration, and says he is an honest, competent official.

Gone East—

Prof. Hargreave, the well known music teacher, of Portland, who makes weekly trips to Albany and Lebanon, has gone east, called there by the death of his father.

Sing in Portland—

Mrs. E. M. Powell went to Portland yesterday to sing last night at the Sunnyside M. E. church in a big sacred concert, under John D. McFall, one of Portland's leading musical instructors.

Shop Early—

Do your Christmas shopping early. Get it out of the way. Have the advantage of early buying. Don't wait for the rush. This is the cry that is going up all over the country, and is timely in Albany.

GRANGE RESOLVES ON O. & C. LAND GRANT

Says Land Should Be Sold to Actual Settlers Under Government Appraisalment.

The Linn County Council P. of H. had a splendid meeting last Saturday with Grand Prairie Grange No. 10. The farmers were too busy with the fall seeding, and the attendance was small. Dr. A. W. Cormack, vice president, officiated.

Much time was spent in singing, song following song, picked from the choicest of the grange melodies. Miss Mabel Merritt was pianist. So great was the interest that it was decided to meet again with Grand Prairie Grange Saturday, Dec. 4 at which time a full attendance is expected. Such a dinner in prospect as was served last Saturday should be a drawing card.

Attention was called to a proposed taxpayers meeting to be held in the near future in Albany to be addressed by Hon. R. C. Smith of Roseburg, secretary of the State Tax League. All the taxpayers possible are urged to be present at the meeting, the object of which is to take action towards lower taxes. Due notice will be given as to date of meeting.

The following was passed:

Resolved, that if the title of O. and C. Railroad land grant be forfeited, we favor the following plan of disposing of the lands: The government to classify and appraise the land; agricultural lands to be sold at an appraised value, to actual settlers, in tracts not to exceed 160 acres, \$2.50 per acre to be paid to the railroad, the balance to be placed in the public school fund.

Timber on the non-agricultural lands to be sold; and proceeds to be used to reseed the lands and for the care of the young timber.

Resolved, also, that we believe steps should be taken to provide for the re-seeding of logged off, non-agricultural lands.

Daily Democrat by Carrier, \$4 Year

the Umatilla forest in northeastern Oregon foots the list with 1,321,000,000 feet.

By species, Douglas fir leads the district with over 98 billion feet, western hemlock ranking next with 73 billion feet. In order of amounts, these are followed by western yellow pine with 32 billion feet, Sitka spruce with 20 billion, amabilis fir with 19 billion, western red cedar with 14 1-2 billion, white and grand fir 5 1-2 billion, lodgepole pine 4 1-2 billion, western larch 4 1-2 billion, noble and Shasta fir 3 1-2 billion, and sugar pine nearly 2 billion; while a dozen or more less important species make up the remaining 19 billion.

LIGHTS GO OUT

soon at the dream city in San Francisco, for the **Panama-Pacific Exposition** closes

December 4, 1915

You cannot afford to put off any longer your California trip. If you are interested in scientific farming, in mining, in horticulture, in art; the study of these things at this exposition will aid you in a financial way.

Overcoat and Raincoat Time!

The winter winds and rains have been a little slow in coming this Fall, but they are here at last, and the need of an overcoat is keenly felt. The style is a medium short coat about knee length, the cloth is a heavy rough goods and in some cases unlined, not so full in body as before, yet comfortably loose, rather wide collar, velvet collars being very popular.

Prices are from

\$10

to

\$25

Consistent with the quality of cloth and tailoring.

QUALITY FIRST

is our motto, that's the reason we offer you better goods instead of cheaper prices, and we know it is the cheapest in the long run.

Raincoats and Gaberdines are as popular as ever and very practical, and prices come less than overcoats. See our \$12.50 raincoat. It's a real value.
