SOUTHERN CALIFORNIA

"THE MAGIC LAND OF PALMS AND FLOWERS"

Southern California has much to offer you this winter. City or country, mountain or beach resorts all are inviting. The Panama-California Exposition at San Diego will remain open another year—bigger and better than ever. But Southern California offers something even greater than this. It is the ever-present and delightful.

Sunshine and Flowers

Roses in bloom, Oranges and Lemons ripening on the trees, Poppies and Geraniums everywhere. This is the real California. The expense of a trip to Southern California is not great.

Low Round Trip six-month tickets are on sale daily from all Pacific Northwest points. Stopovers are allowed at pleasure. Through car service on limited trains, through dining car and observation cars make the all-rail route the delightful way to go.

A Cold Week for Autos—

According to the Automobile Record, of Portland, last week was a slim one for the auto trade, only

13 autos in the state being sold. Of these five were Fords, 2 Dodges, 2 Buicks, and one each of Franklin, Oakland, Overland, and Studebaker.

WHY JONES WAS LET OUT.

Salem Journal Declares That Change was Made to Pay a Political Debt.

In response to the denial of Governor Withycombe that the chief executive of the state fair had any influence in the ousting of W. Al Jones, as secretary of the state fair board, Mr. Jones, in an interview today, stated that the governor not only was responsible for the recent action but had attempted to control the action of the board for the past year.

Mr. Jones stated that the governor had also tried to hush up the late fair gate scandal, and failing in this had tried to "get Jones' scalp" through his influence with the members of the board. As for his successor, A. H. Lea, Jones says that this man was named by the governor to pay off a political debt, and then Jones recalls some of his services in the interests of the governor's candidacy and election.

"The whole thing to start with," said W. Al Jones today, "is that the governor has had it in for me ever since I was elected secretary of the fair board last April. He has told this to certain parties, although he denied it to me but he told certain members of the board that I was not the man for the place and that he wanted a strong agricultural man."

"The governor has tried to handicap the fair in every way in the world. I am led to believe that he prevented his son Bob, who has charge of the experiment station at Union from bringing an exhibit to the state fair for the reason that I have certain letters from Bob Withycombe saying that he could not bring down an exhibit and there never has been a time before that Union has not had a creditable exhibit at the state fair."

"There is no question but that the appointed M. L. Jones, a political and personal enemy of mine, a member of the board after my selection last April to stir up discord and to get my scalp. This fact I had known for some time but only yesterday did the governor say, after he had tried every other excuse for his action, that M. L. Jones was at the bottom of the whole thing and that Lea was Jones' candidate and that he did not know that Lea would even accept the position nor had he consulted with Lea about it. The party to whom he made the assertion answered by saying that this

LACOMB MAN MAY LOSE LEG.

Was Hunting Coons When Tree Fell, Crushing His Leg in a Most Serious Manner.

Luther, the 19 year old son of John White of near Lacombe, met with a painful and serious accident last Sunday. He was out coon hunting with some companions, when they treed several coons and in order to reach them decided to cut the tree down. It did not fall in the direction the boys expected it to, and young White failed to get out of the way, although his companions shouted a warning to him. One leg was literally crushed to pieces from the knee to the foot, the doctors finding large pieces of the bones in the cloth of his trousers. The young man is resting as easy as could be expected under the circumstances. He is at the Parker hospital under the care of a trained nurse. The doctors fear an amputation may be necessary however, this will be determined in a few days.—Seio News.

The Tribune says that neither the young man nor his father would submit to the operation and on this account the young man's life is endangered.

Made Seattle Trip—

Rev. W. P. White returned last night from a trip to Seattle, where he had been to consult with Dr. Matthews in reference to securing Dr. Torrey, of Chicago, for some Albany meetings. Dr. Torrey is to be at Seattle.

was not the case an dthat Lea had been consulted and that he would accept.

The governor substantiated this by making the assertion to two members of the board:

"I will see that Lea is elected secretary of the state fair board if the state fair goes to hades."

I want to say further in response to the governor's denial about having anything to do with my removal that Mr. Savage told both Mr. West and myself that he was under pressure for the governor and could not support me and would have to vote for Lea although he hated very much to have to do so. This happened at the office at the fair grounds on January 12 and on a previous date Mr. Savage told me personally:

"It looks very much as if the governor is interfering."
