England and Germany that the land shall be given to them.

Palestine before the war could have supported six million Jews. It can be made to support 25,000,000, twice as many as there are in the world.

Are Jews brave? There are 400,000 in the Russian army, 100,000 in the German army, 18,000 in the English army, a larger per cent than of others.

The Jews are in the midst of the progress of the world. There are thirty-three in parliament; the minister of finance in France is a Jew; the prime minister of Austria, the mayor of Rome, etc.

Not a prophecy has been made but what has been fulfilled so that Christ could come now. The thing is to be ready.

A big collection was taken for the work, not handled by Mr. Cohen; but sent by local people directly to mission headquarters, at Beth Star Sham, New York.

Willingness to Oblige

THE public has a right to some thing more than perfunctory service from those who supply telephone needs.

There is something more to a telephone service than merely placing at the disposal of the public adequate telephone equipment.

Courtesy, willingness to oblige and patience, under trying conditions on the part of telephone employees, promote friendly feeling and are essential to the best kind of telephone service.
