Farmers have been making good use of the fine weather, plowing their clover sod which they expect to sow to spring grain soon. Farmers have sowed many acres of clover seed, but fears are entertained that the heavy frosts have killed the young and tender plants which had just sprouted.

All kinds of grain passed through the winter so far in good condition, and made a rapid growth during the fine days of the last of February.

Floyd Jenks, Florence Canavan and George Colwell have lately purchased new automobiles, and many others are expecting to buy soon.

Stock in this part of the county came through the winter in fairly good condition, and very little loss has been reported. Hay was plenty and most of the farmers have their stock sheltered.

Does It Look Reasonable Mr. Man

that we can buy shoes for 83 stores cheaper than for one store? Stop and think—suppose one store will use 50 cases of shoes for spring—our stores will use 4150 cases. For spot cash, don't you think we are entitled to a little the best of it? And then our selling expenses are fully 15 per cent less than any store in town. You get this saving which is 25 to 33 1-3 per cent.

Better make up your mind today where to buy your next pair.

In an unusual modern drama of society and the stage.

'The SPHINX'

The theme of this fine picture is big and unusual. Fascinated by the beauty and charm of a noted dancer, commonly called "The Sphinx," a young artist deserts his fiancée and gives himself up to the perils of a mad infatuation. The woman's accepted lover is the boy's father, and each plays the game of love unknown to the other. The big scenes are augmented by big sets; and the whole makes an entertainment that will further popularize this house.
