### MEAT IN EAST SOARING

Has Gone Up Several Cents a Pound On Account of the war.

New York, April 10.—Meat has advanced several cents a pound in the last three weeks and will soar higher, Washington market dealers said today. Fresh and smoked meats and fowl have gone up 2 and 3 cents a pound. Veal is the cheapest commodity for the housewife.

The demand of the Allies has boosted the price of meat. New York, Chicago and Kansas City houses are filling orders for Europe as fast as they can. A Chicago packing firm, contracted for 26,000,000 pounds of meat for the Allies two weeks ago. The orders are more desirable, dealers assert, than supplying the demands in the United States, as the minute a foreign order is placed aboard a boat for shipment it is paid for in American gold.

"We are helpless," said Emile Joseph, one of the largest retailers in the market. "The packers advance the price, and we either have to boost the same or suffer. They offer only one excuse—a big demand."

## The Small Account

Many people hesitate about opening a Bank Account, because they have not much money with which to make the start. They seem to think a small sum is too trivial. They overlook the fact that the greatest fortunes in the world began with small sums—are composed of single dollars—made up of single dollars. This Bank has never put a limit upon the amount with which you can open an account with us. We welcome the small, thrifty depositor. Some day such a depositor is BOUND to become a big depositor. May we welcome you here—never mind how small an amount you may bring.
