### NEW ANTHEM FOR NATION IS PROPOSED IN HOUSE BILL

First Since Forty-sixth Congress, \$2,500 Prize Offered by Elks.

A fine, stirring and high sounding anthem has been introduced into the house by Representative Dyer of St. Louis, who has asked that congress adopt the resolution containing the

verses as a national hymn. The introduction of this poetry as a joint resolution, according to Jool Grayson, the walking encyclopedia of the house document room, is the first since Representative S. W. Downey of Wyoming started the Forty-sixth congress with a 200 page epic.

Representative Dyer's proposed anthem is the effort of Henry McEuen Jones of St. Louis to win the \$2,500 prize offered by the Elks for a national anthem that congress will accept. The last verse of the resolution reads:

Give us peace by upright arbitration. No death-dealing shot to be hurled, But if forced into war just remember That Old Glory will never be furled. For our union's cemented forever. We have honored the blue and the gray. Then we'll righteously follow Old Glory With a power no nation can stay.

### MAY BREAK GREAT ESTATES.

The British Government May Adopt Scheme of Land Purchase.

One of the results of the war, according to reliable information, will be the adoption by the government of a big scheme of land purchase for England such as has been so successful in Ireland.

Confronted with the twofold problem of providing employment for discharged soldiers both during and after the war and the desirability of increasing home grown food supplies, the home office, the board of trade and the board of agriculture entered into consultation with the war office and the admiralty, and the outcome was the appointment by the board of agriculture of a special committee presided over by Sir Harry C. W. Verney.

The report of the committee is said to recommend extensive state acquisitions of land by compulsory purchase for the establishment on a large scale of colonies of small holders and the development of co-operative buying and marketing and of agricultural credit banks, together with a provision for a large state grant to put the proposals into operation.

### DID ROOSTER WALK 88 MILES?

Lost in New York, He Turns Up in Port Jervis With Swollen Feet. Edward and Albert Monroe, who have a large poultry farm near Port Jervis, N. Y., recently exhibited some Plymouth Rock fowl at the poultry show in Madison Square Garden, New

York city, where one of the roosters won first prize.

When the birds were crated and ready to be expressed back to Port Jervis the prize rooster, valued at \$250, escaped and for four weeks was lost. The other morning when the Monroe brothers went out to feed their feathered stock they were amazed to find the missing prize winner in the yard. His feet were swollen and calloused, and he was weak from exposure and lack of food. But he crowed lustily.

### Cleveland's Inexpensive Police Force.

Cleveland has one policeman for every 831 inhabitants. New York has one for each 495 inhabitants, and Chicago one for each 480 citizens. St. Louis has one policeman for every 370 of its population. These facts will be contained in a report soon to be issued by Secretary W. W. Norris of the police department. The statement will show that Cleveland's per capita expenditure for police is less than that of any of the largest fifteen cities of the country.

### Checker Tournament in a Jail.

Inmates of the county jail in Superior, Wis., are conducting a checker tournament, and matches are played daily despite the fact that some of the men are confined to their cells. One man holds the board on his lap and the other makes his moves by poking a stick through the bars.
