The Small Account

Many people hesitate about opening a Bank Account, because they have not much money with which to make the start. They seem to think a small sum is too trivial. They overlook the fact that the greatest fortunes in the world began with small sums—are composed of single dollars—made up of single dollars. This Bank has never put a limit upon the amount with which you can open an account with us. We welcome the small, thrifty depositor. Some day such a depositor is BOUND to become a big depositor. May we welcome you here—never mind how small an amount you may bring.

Always remember life holds nothing trivial—Louis XI.
