### FARNUM DOES GREAT WORK IN "THE BONDMAN"

One of the most skillful bits of acting ever seen in photoplay is done by William Farnum, who plays two separate parts in "The Bondman," a William Fox production of Hall Caine's celebrated novel, which appears at the Rolfe tonight and Saturday. Mr. Farnum, who, while on the legitimate stage, appeared for five solid years in "Ben Hur," plays the parts of Stephen Orry and Jason Orry, father and son.

The types are radically dissimilar. Stephen Orry is a huge, heavy-limbed giant; a vagabond, indifferent to the needs of those dependent upon him. Jason, the son, who vows to kill his dissolute father, is a vigorous, clean-cut type. In the development of the action there is a lapse of several years and Stephen becomes an old man. The transition from the Stephen of middle life to the aged Stephen allows Mr. Farnum to display to the utmost his exceptional dramatic talent.

In one of the scenes Jason rescues Stephen during a shipwreck and swims ashore with him. In view of the fact that Mr. Farnum plays both parts, the scene constitutes one of the most remarkable photographic achievements since the advent of photoplay.

WHEN answering classified ads, please mention the Democrat.

**Popular Nomination.**  
Scio Tribune: Miss Velma Davis, of Albany and daughter of the late E. E. Davis, Linn county's first county recorder, has been nominated to fill the office formerly occupied by her father. She has had excellent training for the place and, if elected, will make an efficient official. Moreover, if there is a county office for which a woman is especially adapted, it is that of recorder. Miss Davis should receive the vote of every woman voter of the county as well as those of the male democrats. If she does, she is sure of election.

**Benton's Nominations—**  
The Republicans of Benton county nominated W. P. Lafferty for representative, C. H. Glos district attorney, W. A. Gellatly sheriff, Emery J. Newton clerk, S. N. Warfield recorder, Frank M. Bullis treasurer, L. J. Corl surveyor, Roy E. Cannon superintendent, W. C. Galloway surveyor, M. S. Bovee coroner, D. N. Williamson county commissioner. The Democratic vote was being counted today.

**Their Pictures—**  
Pictures of Albany men shown in the Roseburg Review, in connection with the meeting of the grand lodge of Odd Fellows were W. W. Francis, treasurer for many years, and Geo. W. Wright, grand representative. Albany men took a prominent part in the doings of the grand lodge.  
**Admitted to Probate—**  
The will of the late Geo. W. Soule was today admitted to probate by Judge McKnight, and Chas. E. and Ira G. Soule were appointed executors without bond. The estate is valued at about \$6,000.

### FORMER ALBANY MAN LABOR COMMISSIONER OF WASH.

#### C. H. Younger Appointed By Gov. Lister Because of Efficient Safety First Work.

The following dispatch from Olympia, Washington, tells of the success of a former Albany man, for several years connected with the Albany Woolen Mills. His son J. Arthur Younger, is general manager of the Associated Students of the University of Washington:  
Gov. Ernest Lister today announced the appointment of C. H. Younger as state labor commissioner, to take office June 1, when E. W. Olson, present labor commissioner, becomes a member of the industrial insurance commission.  
Younger resides in Seattle and has served the state labor department as chief factory inspector for the past three years. In that capacity he has had charge of the "safety first" campaign carried on persistently by the department in behalf of all employees in hazardous occupations. His appointment is largely due to the educational efforts to prevent accidents.  
Appointment to the position of chief factory inspector has been left to Younger when he shall have become head of the state labor department.  
Younger is a former state organizer for the American Federation of Labor and is one of the best known labor leaders in the state.

**Old Enough—**  
Rev. Fagan remarked this morning: "I'm glad my boy has gotten old enough so he has to go to the circus." The boy is now a year old.

#### A FEW NOTICES FROM DALLAS PAPERS ABOUT SUCCESSFUL ELECTRICAL OPERATIONS BY DR. TOEL

Mrs. Sarah D. Dodson of Sheridan, Ore., more than 83 years of age, had a cancer removed from her nose by Dr. Toel. Two years before that she had one removed by one of the eating plasters leaving a big hole right through the nose and causing her unbearable pain. As soon as she read that Dr. Toel was in Dallas she came to have it removed by his bloodless electrical operation. The operation caused very little pain and was a perfect success as the cancer has never returned.

Mrs. Miles Davis, of Summit, Benton Co., Ore., had been operated upon with a knife before Dr. Toel came to Oregon. She had been suffering from piles and fistula, but about half a year later began to lose blood from the rectum and had pain. She came to Dallas to consult Dr. Toel who found the small hard growth in the rectum. He removed it by one of his bloodless and almost painless electrical operations and after taking electrical treatments for spinal trouble for two weeks, Mrs. Davis returned home free from any loss of blood and pain in the rectum.

Mr. Clarence Dornhecker of Dallas had been suffering for five years from a severe form of acne, his entire back and part of his neck and face being covered with suppurating pustules. This trouble is very common amongst young people, but all the remedies, internal as well as external that had been prescribed by Mr. Dornhecker had been useless. He therefore consulted Dr. Toel who destroyed all the pustules by bloodless electrical operations and then applied electrical currents over the entire surface to prevent the breaking out of new pustules by killing the germs in the skin, and thus succeeding in curing his patient after all drugs had failed.

Mrs. C. L. Hubbard, of Dallas had before Dr. Toel came to Dallas been examined by a physician in Portland for a growth on the womb, which he declared to be cancerous and advised her to have it cut out. Mrs. Hubbard, knowing the uselessness of the knife for cancer on account of the many returns after cutting operations, delayed, but a short time after Dr. Toel's arrival in Dallas she consulted him. Dr. Toel found the diagnosis of the Portland physician correct and advised immediate removal of the cancerous growth by an electrical operation, which was performed the next day. The operation was entirely bloodless and caused so little pain that an anesthetic was not even used. Mrs. Hubbard walking a mile from her home every day for several weeks to the doctor's office to take electrical treatment from a spinal trouble from which she also suffered. She is perfectly well now as she told Dr. Toel a few days ago when she told him, and has considerably gained in weight since she is free from all pain.

Many other cases of cancer and tumors have been electrically cured by Dr. Toel from whom he has not heard since, but who certainly would have returned to him in case their cancers had returned, for in the extremely rare cases where a cancer returns after one of his bloodless electrical operations he is always perfectly willing to perform a second operation from of charge.

His new office is Suite 10, Dallas National Bank Building, Dallas, Polk County, Oregon.—Adv.

## Health et Wealth

Only one letter differentiates the word "HEALTH" from "WEALTH" and the things themselves are more closely related. IF YOU ARE INTERESTED IN REGAINING HEALTH AND RETAINING YOUR WEALTH SEE

### PORTLAND TO HAVE BIG TRAP SHOOT JUNE 4, 5, 6, 7

#### It Is to Be An All-Northwest Event, Squier System to Prevail.

Portland, Ore., May 26.—Eyes of sportsmen of the Pacific Northwest are centered on the Everding Park traps of the Portland Gun Club where the 32nd annual tournament of the Sportsmen Association of the Northwest will be staged June 4, 5, 6 and 7. Trap shooters from California, Washington, Idaho, Montana and Oregon will participate.

To take care of the record-breaking number of shooters expected, the club has installed four of the latest trap houses. They are made of concrete and each will hold 30,000 targets.

The feature of this season's tournament will be the "For You a Rose in Portland Grows" event of 100 targets. This will be shot in five events 20 birds each. W. J. Houser of Pomeroy, Wash., won the event last year with a score of 99 out of a possible 100.

Officials have decided to shoot the regular events under the Squier money-back system, which has become popular with the shooters. The trophy events, nine in number, will be shot under the yardage handicap system.

The first day's program will consist of 10 events of 15 birds each from the 16 yard line and three trophy events. The second day's program will be the same, and on the last day the Rose Festival event of 100 targets and three trophy events, including the three-man team race, will be staged. Sunday, June 4, will be practice day.

### OREGON BIRD DAY.

School Children to Make Study of Birds and Get Better Acquainted With Them.  
Salem, May 26.—Today is Oregon Bird day, proclaimed by Governor Withycombe at the petition of a large number of school children. Today every boy and girl in the state is supposed to try to become better acquainted with the feathered tribes and do something to promote their interests.

### SON IDENTIFIES REMAINS.

#### Herbert Bucknum Recognizes Watch and Other Things With Skeleton as His Father's.

Eugene Guard: Herbert Bucknum, son of J. R. Bucknum, last night positively identified the personal effects found this week with a skeleton near Mabel, as those belonging to his father, who was lost in the woods near Harrisburg, 18 years ago.  
Mr. Bucknum, the oldest living living son, was summoned from California, to definitely establish that the remains found were those of his father. He arrived in Eugene last night and after an inspection of the watch and other personal trinkets, he stated the belongings were those of his father.

This is the last step in clearing a mystery which has puzzled the authorities and residents of this section of the state for many years. Searching parties were organized, but it was not until last week that John Cocoll, a logger, accidentally found the skeleton in the woods.

The remains were shipped to Harrisburg today. Funeral services will be held at that place.

### Saw the Tents Go Up.

Our neighbors were all out early this morning to see the circus tents go up.

### Tomorrow Is Salesday.

Tomorrow will be salesday in Albany. The indications are a good many things for the auction block. Coming after circus day, though, it is not certain about the crowd; but the outlook is good just the same.

### Boy Born Today.

A six and a half pound baby boy was born at 4 o'clock this morning to Mr. and Mrs. W. W. Misner, at their home of Cleveland street. Mr. Misner is a member of the street department. All doing well.

### Trains are Crowded.

Large crowds came in this morning on every train. One in particular, the Mill City motor arriving at 8:15, carried 90 passengers. It has a capacity of 70 seated and about 100 can crowd onto it. The Brownsville train also brought in many, large numbers came from Corvallis and Philomath and many more came in on the electric from both directions.

### All Oregon Celebration—

In mentioning the big All-Oregon 4th of July celebration at the fair grounds, Salem, it was stated that it was proposed to charge an admission fee of 25 cents. This caused such a storm in Salem that it has been decided to have it free, as all 5th of July celebrations should be, but there will probably be a charge to see the races.  
**Born—**  
To Mr. and Mrs. Homer Moore, of North Albany, Thursday evening, May 25, a son, their first child.

## Viligance for Good Service

**EVERY** Bell Telephone exchange has its wire chief. He is unknown to the subscriber, but his important task is to see that the talk tracks, both inside and outside the exchange, are kept constantly in good working order. Day and night, the work of testing the lines and apparatus goes on. Complaints are promptly followed by and breaks are often repaired before the subscriber knows of the trouble or is inconvenienced.

The constant vigilance of the wire chiefs keeps the 14,000,000 miles of talk tracks and the intricate central office equipment of the Bell system in readiness for instant service.

Every Bell Telephone is a Long Distance Station
