How the "Golden Claw" tore apart a husband and wife is told in the Triangle play of that name to show at the Rolfe theatre tonight. He is ruined and is about to commit suicide when he overhears his wife telling his rival that she had refused Mills in order to win him back to himself. At this disclosure he masterfully sends the other man on his way, and with some of his old fire he takes his estranged wife to his bosom.

COMMENDS W. L. JACKSON.

Writer in Scio Tribune Tells of Service of Superintendent To Cause of Education.

Following is from the Tribune, of Scio, by a writer signing the name Citizen:

One of the most important duties devolving on the voters of Linn county in the November election is the selection of a county superintendent of schools. This office has become one of the leading factors in the education of every student in the schools of the county as well as a leader in the development of the material resources of the county.

The present incumbent, W. L. Jackson, has, by his tireless efforts, placed the work of this office far in advance of any previous administration in the history of the county. Superintendent Jackson has been petitioned by more than nine-tenths of the teachers and encouraged by many representative citizens to become a candidate for re-election and as he is a worker of the first magnitude and a live wire in every respect, should be supported by every citizen of the county. His personal knowledge and experience in every grade and phase of school work is an asset to the county which can not be duplicated by another. By his leadership the schools of Linn county have become the first in the state. The 8th grade system of state examinations in the elementary schools has been encouraged to the extent that these students have entered the high schools of the county and we now have more four year schools of the county than was in the entire state at the beginning of Superintendent Jackson's term of office. The present high school fund law, optional with the people, was first advocated by T. L. Dugger, the editor of the Santiam News and a canvasser of the county was made by Superintendent Jackson, resulting in the adoption of the present law, which has proven a great success in establishing high schools in many places in the county.
