"Electricity means a cool kitchen"

An electric range is the only real cool solution of the summer cookery problem.

G-E ELECTRIC RANGES

have such perfect heat insulation that the heat generated is concentrated on the food and not on the cook.

The G-E range does perfect work because of the positive and exact control over temperatures which its construction gives to the operator. Furthermore, all vapors and natural juices are retained and cooked through the meat with their full flavor and nutritive value. For this reason, also, shrinkage of food is less.

Let us demonstrate to you what the G-E range will do

DODGE BROTHERS MOTOR CAR

One of the sincerest compliments paid the car is the eager demand for it at second-hand.

You will rarely see it mentioned in the second-hand advertisements. There is a constant waiting market and the price is always high.

Our 1917 cars are now here. Call, write, or phone for a demonstration.
