Was Opened This Afternoon
With Grand Pageant By
the Sunday Schools.

TONIGHT WILL BE
THE MELTING POT

Tomorrow Will Occur the All-
day Granger Picnic and
Class Work Will Begin.

That this will be about the best assembly of the Albany Chautauqua in its history is the opinion of those close to the work. The start is a good one. The ground this morning was in ideal condition, well spotted with tents, with the prospects of a good many more.

Ground Manager J. S. Van Winkle was one of the first to be house-keeping, on the spot he has always occupied. Stanley Van Winkle has the refreshment concession and is ready for business. The W. C. T. U. was among the first to be ready for callers, then the Baptists and others. Families are beginning to take their outings on the ground, and several young men have tents up.

The famous pontoon bridge is in place, with more water under it than usual. Things were not ready this morning for the domestic science, junior work, and the Bible class, and they will start tomorrow morning.

Miss Joy Harmon, who has a splendid reputation, will have the junior work, including the play ground, and will be here ready for her classes on Monday morning at 9 o'clock.

The real introduction to Chautauqua occurred this afternoon with the program of the Sunday Schools of the city contesting along three lines, largest percentage of enrolment, most unique features, best display of banners.

The parade was one of the best seen here. Seven Sunday Schools took part bright in their unique costumes, banners floating and display of individual colors. The Baptists led with yellow, Christians blue and gold, Evangelical white and red, Methodists red, First Presbyterians sky blue, Grace Presbyterians white and blue, United Presbyterians white and yellow. Following the parade each school gave a five minute program on specified subjects. Baptists light, Christians wisdom, Evangelical joy, Methodists love, First Presbyterians freedom, Grace Presbyterians hope, United Presbyterians missions.

The number in the parade as counted by a Democrat man was as follows: Band, 15; Baptists, 160; Christians, 195; Evangelical, 73; Methodists, 107; First Presbyterian, 108; Grace Presbyterian, 63; United Presbyterian 198. Total 919.

THIRD AUTO THIEF THOUGHT TO BE CAUGHT

Sheriff Bodine Telephones From
Roseburg That John Taylor
Is Taken at Riddell.

Deputy Sheriff Ralph Thom received a telephone call this noon from Sheriff D. H. Bodine, who went to Roseburg to bring back Charles Taylor and Willie Harris, charged with stealing an automobile from W. C. Muller, of this city, some guns and jewelry from Riley Morganon, of Shedd, in this county, that the sheriff of Douglas county has arrested a boy at Riddell, 28 miles south of Roseburg, answering the description of John Taylor, the third boy in the party. He had not been identified yet, but Sheriff Bodine stated that he would wait until the boy was brought to Roseburg and if he is the one wanted, all three will be brought back at once.

According to the accounts in the Roseburg papers, John Taylor caused great excitement in breaking away. As the deputy sheriff was locking the three up, Taylor ran out of the jail and down the street, not heeding the shots from the deputy's revolver, cut across to the Umpqua river, swam it and kept ahead of a posse of about 100 men and boys. Several shots were fired at him.

NOTE TO MEXICO

Carranza Garrison at Carrakitos Attacked By Desperate Band of Villistas.

(By United Press)

Washington, July 7.—President Wilson proposes to let Carranza himself suggest the best means whereby this country can aid Mexico to solve the difficulties. This was stated today as the most important feature of the note of Secretary Lansing to the Mexican foreign secretary, Aguilar, accepting the latter's proposal for direct negotiations. The note, in completed form, was transmitted after a long cabinet session. It is expected to be forwarded to Mexico City by Ambassador Arredondo before night.

Washington, July 7.—Mexican Ambassador Arredondo, acting on instructions from Mexico City, notified the state department that a large band of Villistas attacked the Carranza garrison at Carrakitos, near Jimenez, state of Chihuahua, Wednesday, almost destroying it. Fearing that bandits might take to the desert, Carranza has asked the state department to have the border watched on the American side between Boquillas and Ojinaga, to prevent a raid.

Big Will Battle.

Washington July 7.—A legal battle to break the will of John R. McLean, involving the administration of millions amassed by the publisher-financier, was started today by his son, Edward Beale McLean, sole heir to the fortune.

LOGANBERRY JUICE PLANT CROWDED TO KEEP UP

First Week 3,000 Gallons of
Juice Was Made; 40,000
All Expected.

Albany's loganberry juice plant is running full steam, and is proving the wisdom of the men who backed the project of establishing an industry here that will consume the products of the soil. In the first week that the plant has run, over 3,000 gallons of the delicious, ruby liquid have been pressed from the several tons of berries that were brought to the plant. Yesterday nearly five tons were pressed into juice. The berries are coming in at present faster than they can be cared for on regular shifts, and the crusher has been working overtime.

Yesterday the pasteurizer was put in place and will materially assist in turning out the product more rapidly. Up to the present the juice has been pasteurized by placing the 5-gallon containers in large vats and heating them with hot water up to the required temperature. There has been no finished product made at present, but the processors have been installed and Mr. Brown will run out his first lot in a few days.

Administered to the British
With Heavy Losses.

(By United Press)

London, July 7.—British troops resumed their great offensive against the Germans at dawn today with simultaneous smashes along a wide front. The official statement from General Haig announced a striking British success east of La Boisselle, where a thousand yards of German trench was taken with the capture of several important tactical positions. "North-west of Thiepval the enemy temporarily regained two and three hundred yards of lost ground," said the official statement. "During the night the enemy heavily bombarded our new positions at Bernafy Wood, Montauban, and La Boisselle, sometimes using lacrimatory shells.

Berlin, July 7.—A severe check has been administered to the British in their combined Anglo-French offensive, according to reports received here. The British suffered unusually heavy losses. Since the opening day of the British attack, General Haig's army has been unable to make important gains against the German line. They were forced to abandon the shell-wrecked first line trenches. The Germans retired to the second line, where they threw back time after time the British infantry assaults. The manner in which the Germans stood the first shock has inspired confidence in Berlin that anticipated later assaults will be repulsed.

Hawaiians With Alisky to Appear at Chautauqua

First Hawaiian Company in America, Now Under Management of Kekuku,
to Appear on Last Day of Chautauqua

THE members of Kekuku's Hawaiian Quintet, coming to Chautauqua, are principally drawn from the Alisky and Toots Paka Troupes, who roused such a wild fervor of enthusiasm throughout the United States several years ago. Kekuku was the instrumentalist featured in both companies. He, together with his players, toured with the "Bird of Paradise" Company. Joseph Kekuku is the originator of the steel pick, a sliding, two hand fingering method of the guitar that has made Hawaiian music famous the world over. To this art belongs that half ready, dreamlike, whispering hum of the guitar and taro patch, that plaintive, witching charm, which in its lulling sweetness even rivals the possibilities of the human voice.
