ALBANY MAN TELLS OF TRIP TO EASTERN OREGON

Went Up the Columbia Highway
and Down Other Side to
Drewsey.

Twin Springs ranch, near Drewsey, Or., July 14.—For the benefit of auto tourists who contemplate a trip to Eastern Oregon, I will say that the McKenzie route may afford much pleasure and the Santiam route via Clear Lake may prove enjoyable, but the Columbia Highway route, is a source of constant delight from the time you strike its paved roadway until you reach its end near the eastern boundary of Multnomah county. The scenery along the mighty Columbia exceeds in point of beauty, anything that could be pictured on canvas.

There are not enough words in the English language, or any other language, to portray the majestic grandeur, the many beautiful landscapes,

the mighty awe inspiring rocky and craggy cliffs, peaks, and canyons; the magnificent waterfalls, and the thousand and one scenic wonders which thrill one with delight, and an indescribable ecstasy, that one can feel but not describe. The wonderful views of the handwork of our all wise Creator, which line this highway, make it the grandest in the world. There is no need for the traveler to go to Europe for scenery.

Here are mighty structures, landscapes more beautiful than paintings from the old masters; a mighty river dotted with small islands covered with green verdure; wonderful catafacts, and delightful silvery spray fall; huge cliffs covered with hanging moss, and a thousand views prettier than any painting.

We felt as if we could have lingered here for a week rather than the two hours spent at Multnomah Falls, and at Crown Point, which at night is lighted with electricity, and the commemoration of which was honored at its opening by President Wilson touching the button. We arrived here safely and have traveled, as registered by the auto, 636 miles, in reaching "The Twin Springs Ranch,"

The permanence and endurance of the finish is worthy of more than passing consideration

The process itself—The baking on of the enamel at an intensely high temperature—is unique, and so are the results. After months of ordinary process of polishing brings back the original lustre.
