### WILL MAKE MOVIE STAR IN 12 MONTHS

Wm. Fox Discovers June Caprice Boston School Girl Said to Be a Second Mary Pickford.

Movie fans of America: Meet little Miss June Caprice, seventeen years old, who within one year will be the most popular little girl in all the wide world of the movies.

William Fox has discovered this new young beauty with the laughingest eyes and the sunniest smile ever filmed, has "tested" her carefully before the camera, and has deliberately told this little beauty that he will make her more famous than any girl has ever been made before in the film world.

Mr. Fox commissioned six representatives to go forth into the big, broad highways of American life and find him the most typical smiling, happy little beauty without experience.

"See that you find for me a natural, graceful, pretty girl without affectations or mannerisms; a girl who is winsome, happy, who lives with her parents or is off studying somewhere in a girl's school. When you think you have found the most remarkable girl you ever saw bring her to me. We will give a long and adequate test to the theory that prevails throughout America that youth, beauty and

grace, backed by good plays, can make a star of the first magnitude out of a girl whom the public has never heard."

June Caprice is the girl who answered all these descriptions. Her home is in Boston; she was born in Arlington. She is young, beautiful, has the beauty and loveliness of the Mary Pickford who first attracted screen attention throughout the world, and has been mistaken for Miss Pickford wherever she went in her native Bostonian habitat.

During the world's series baseball games in Boston, June Caprice appeared at the game in place of Miss Pickford and as Miss Pickford, and was wildly cheered by 30,000 fans, was photographed for the newspapers and interviewed by the reporters of a score of cities without one of them ever suspecting that he was not talking to the real Little Mary of film-land.

You will now have the opportunity to see the first public appearance in the photodrama "Caprice of the Mountains," in which she is starred—a real star—with Harry S. Hilliard, the handsome movie actor.

Her name means nothing as yet, but her beauty means much already.
