**WITHOUT FACTIONS.**

Albany is on the up-grade, regardless of the present war conditions that have affected this state. With the furniture factory starting up under modern methods, with a first class equipment; a loganberry juice plant in operation, furnishing the best juice in the country, and its old establishments in steady operation, there is reason for being optimistic in reference to the future of the city.

One of the best signs observed is the breaking up of old factions and the working together for progress regardless of individual views along social lines. For instance, men who fought the prohibition of the liquor traffic and the things that work for moral advancement along with the new conditions, are now lining up in harmony with every thing that shall operate for the betterment of conditions generally, commercially and socially. This is not complete yet, but it is working fast this way.

United effort has been at the bottom of the growth of prosperous cities more than any other thing, a fact demonstrated on every hand.

Eliminate factions from Albany and there will be no question about the progress of the city.

That this is gradually being done the Democrat has assurance of a reliable character. The old enmity over dry and wet conditions is being done away with, as men generally learn to appreciate the advantages of government without the saloon.

Education is a power in breaking down the walls of prejudice and bringing men into a union of effort for building up business and society. Residents of the city desiring to see Albany become the city its advantages entitle it to should work for the completion of the death of factions.

**WHO DID IT?**

Seeking to make capital out of the bomb tragedy at San Francisco is a sample of the yellow journalism of the day. The Hearst papers particularly have been leading in the assault. They have even gone so far as to rabidly ask that men shall not be allowed to have peace meetings, claiming that peace agitation is at the bottom of the anarchistic act, a claim that is absolutely putrid.

The act was undoubtedly that of some man or men who came here from Europe to avoid militarism and who believed that demonstrations being made were tending towards such a result and lawlessly sought to make an example, a brutal and heartless method, which only the most depraved person could resort to.

One bomb expert gives it as his opinion that the explosion was an accident, but there is little to justify such an opinion.

**WHAT IS THRIFT.**

The subject of thrift is being considered a good deal. Recently a prominent man delivered a lecture on the subject. When the subject is boiled down thrift means living within ones means. The man who does and saves even a little all the time is thrifty. The person who lives beyond ones means is thriftless. The person whose income is just above his expenses is not stingy, no matter how small his income. Men who do not pay their debts are the great drawback to the commercial world, causing many of the failures that occur.

**MISFITS**

Father's day: pay day.  
The papers are having a dose of "on account of the war" in the increased price of paper, for they foot the bills.

We like a jeweler's banquet. All the toasts are short and to the point.

Next to a war is a long response to a toast.

Long talks as a rule are full of tires.

Henry Ford is to be congratulated. Dr. Aked has quit him.

Curling irons continue in vogue. A Eugene woman discovered this fact when one of them she was using fell and hit one of her eye-balls.

In the movies even the old men kiss their wives. How different from real life.

Some of these movie osculations are certainly the limit, for instance those in which the hero takes a cigarette out of his mouth to perform the act.

Some time since we heard from Hornbrook, Calif.

An advertisement that should take was the one that read: For sale, a beautiful 1912 auto, five good tires, newly painted, overhauled, owner in hospital.

**About the Best.**

Why is a newspaper like a woman. Because every man should have one of his own and not run after his neighbors.

Mrs. Snow and two children of Marshfield passed through the city in an auto, after Maurice Winter had been here. This may account for the cool weather.

**A Good'un.**

Salem Journal: Here is a real war story from the southland. The tale is as follows and was written in a letter to a friend here by Corp. Carl Gabrielson: "I took my squad to a Mexican restaurant yesterday. They wanted some steak and mushrooms, but we had difficulty in explaining, as they could not understand English. Finally I drew a picture of some mushrooms and a cow. Pretty soon they came back with six umbrellas and tickets to the bull fight."

**From a Philomath Ad.**

My friends this is the second week of our great challenge sale, and now's the time and here's the place where you can save your kale. A forty-two piece white tea set for just three and a half, this is a present that I'm sure would make the good wife laugh. And one big lot of broken sets of dinner ware so fine, we're selling them at ten cents each just to close out this line. Silhouette toilet tissue to the roll, five hundred sheets, four of them for a quarter is a bargain hard to beat. A number two size boiler with a copper bottom fine, this surely is a bargain at a dollar eighty nine.

**ALBANY ASTONISHED BY SIMPLE MIXTURE**

Albany people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL removes such surprising foul matter it relieves almost ANY CASE constipation, sour stomach or gas. Because Adler-i-ka acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble.
