STRONG FOR WILSON.

The steady drift of Progressives, Independents and many old line Republicans to the support of President Wilson is being indicated daily by increasing and steady enrollments of voters in the various state leagues of the organization.

An enrollment announced to the national headquarters by telegraph from Seattle, Washington, was that of C. J. France, for long prominent in the affairs of the coast state who presided a few weeks ago over the Progressive state convention in Seattle. Mr. France announced that he was unwilling to retreat from the Progressive position he assumed in 1912 and he would, therefore, support Mr. Wilson as against the Republican candidate, Mr. Hughes.

The promoters of the League were elated by a message from the Washington Woodrow Wilson League announcing that William H. Gorham, a life long republican whose father was at one time chairman of the Republican national committee, had declared for Mr. Wilson and become a member of the League. Mr. Gorham says a great influence in winning Washington voters to Wilson is the administration's policy for the development of Alaska. Mr. Wilson's Mexican policy, the ship purchase bill and child labor legislation are winning friends for the president from the republican and Bull Moose ranks. Not alone are the larger parties suffering from the defections of Wilson "independents" but the recent enrollment of Dr. Edwin Jay Brown, in Seattle, takes from the Socialist party its state leader. Dr. Brown espoused the cause of the president because of his humanitarianism and interest in the welfare of children and the restriction of child labor by adequate protective legislation.

Dr. Brown's last entrance into local politics in Seattle was as an independent candidate for the city council. He polled 24,000 votes.

Blair, Kansas, reports that several stalwart Republicans of that place and many former Roosevelt supporters have declared for President Wilson. Anton H. Jensen writes as follows on behalf of himself, his father and his brother:

"We are all Republicans but we haven't the slightest desire to vote for the Roosevelt-Penrose offspring, Charles Evans Hughes. * * * We take off our hats to the man brave enough to thwart the desires of the Mexican money bleeders. The president's appointment of Justice Brandeis to the supreme court was immense; his championship of government owned and controlled steamships was a step in the right direction. Apply it to the railroads.

"Roosevelt? He betrayed the Republican party, foully murdered the Progressive party, and, if president, would have dethroned justice and enthroned ego.

"We were all Roosevelt men once—but thank Heaven are so no more. We're only farmers but we know what we are doing."

Revolted at what he terms the betrayal of the Progressive party, B. F. Olcott, of Lane, Kansas, who was an alternate to the Bull Moose convention, has announced that he will support Mr. Wilson. Mr. Abbott was a Republican up to 1912, when he joined the Roosevelt and became active in the Progressive ranks. Mr. Abbott writes to national headquarters:

"The same reasons that caused me to leave the Republican party in 1912 prevented me from going back to it now. I believe that the Progressive Party was deliberately betrayed. I sat in the national convention as an alternate delegate and could come to no other conclusion."

Thomas J. Coulter, a laboring man of Wichita, Kansas, sent the League a strong letter endorsing the president. "I am a laboring man," he wrote, "and we are absolutely against the

election of Mr. Hughes. We are also against war and we believe Mr. Wilson has kept us out of war. "In fact he is the only president who has helped the common people since the Civil War. To defeat him for re-election would be a calamity to the country. "God grant us four more years of Woodrow Wilson."

MISFITS

Paris Green, a vaudeville performer at Portland, is not dangerous.

It is being discovered that Mr. Hughes is not of presidential timber.

The average gossip doesn't know it.

Most people who talk about their neighbors think they are just conversing and having a good time.

Gossiping will never stop until people learn that they are the IT.

It's funny; but when things are up it means prosperity to the farmer, which everybody is demanding, for his prosperity means general prosperity. It also makes high cost of living, which everybody is objecting to.

Will some one scratch their head and solve the problem. We want the farmer to get big prices for his things; but we don't want to pay the prices ourselves.

Of course there may be a graft somewhere in the mixup; but that seems to be a part of modern business methods.

Mr. Hughes in his campaign has been kicking at the high cost of liv-

ing; but he hasn't been saying much about high wool, high wheat and about other things that have stirred things up financially and made living high.

It takes a big man to change his opinion. Small men keep in a rut, right or wrong.

President Wilson is unswerving in his efforts to have the right prevail. If he finds that he has been mistaken he gets on the right track. Only claims never make a change.

Altogether President Wilson has displayed a backbone and a consistency that commends him to the world, and his Mexican policy is one that specially meets the favor of the masses, and the criticism of politicians.

Anxiety: Yes, there's a new dance called the twinkle trot. It is much like the fox trot. You start the same; but where the trot occurs, there is a sudden shuffle of the feet and the foot in front reverses the action, gets behind and then suddenly recovering continues to lead over eight measures. This is where the twinkle comes in.

A railroad strike will create an enormous demand for automobiles, which will give the jitneys an enormous business between towns.

Here is a case where the linotype counts. The Democrat has received a letter from "Curry Camping Co., Camp Curry, Cal." Do you C?

Twin Tires?—No One's a Goodyear as It Might Be The Other Costs Us \$1,635,000 More This is to prove that you can't judge tires by looks. Here are two Goodyear tires, seemingly identical. But one is built like many of its rivals. Goodyear extras are omitted. The other has those hidden values. And those unseen extras, on this year's output, will cost us \$1,635,000. This year's betterments alone add to our cost \$500,000 yearly. Yet our 1915 price reduction saves our users about five million dollars. No Price Excuse This is not a price excuse. Goodyear prices have been fairly racing down. Our late big reduction made the third in two years, totaling 45 per cent. No equal tire can compete. Goodyear Service Stations Tires in Stock
