ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State. Of more than 6,000 school teachers in the public schools of Oregon, but 15 per cent have been trained for their profession of teaching in Normal Schools. It is a well established fact that our one Normal School cannot supply the needs of the entire state. That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

GIVE EASTERN OREGON SQUARE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 39 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 277 students as against 91 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

ONLY COSTS 4 CENTS PER \$1,000

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 25th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Western Normal, and practically all of the leading educators of the State. J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training."

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 5000 or more population and having enough grade pupils for teaching practice.

VOTE RIGHT

By voting YES for No. 308 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states. Vote YES for No. 308.

A REPUBLICAN BOUMERANG.

Nothing so forcefully reveals the desperate situation at the Republican National Campaign headquarters as their attempt to discredit President Wilson's Mexican policy by a "Movie" picture directed by a pardoned convict, whose idea of a "thrill" is a scene showing nuns being ravished and whose conception of patriotism is the President asleep at his desk.

But after all, the principal is responsible for his agent. Hal Reid was only trying to earn the \$35,000 appropriated by the Republican National Committee for a film, which now stinks so they don't want to get within smelling distance of it. And they excuse themselves by saying they never knew it would be so rotten. The point is this—it wasn't too rotten if they could get away with it. They were caught in the act of trying to "put it over." They were caught in the act of trying to deny responsibility for it. Does any one believe that Hal Reid

CORVALLIS

went ahead with the faked false film before he had had his scenario O. K'd. By some one in authority at Republican Headquarters? Everett Colby's endorsement: "It's a corker." is sufficient proof of this.

That it was in execrable taste or even treasonable—what was that to this crowd which has nothing to spend but money? The whole sordid affair is a fit parallel to the Rum, Romanism and Rebellion campaign which proved such a boomerang to the parties that started it. What can you expect of a party which campaigns on abuse, vilification, slander, innuendo and lies? We agree with the Brooklyn Eagle in wondering "if there was anything in this film that was not more than suggested by Colonel Roosevelt in his many attacks upon the President's Mexican policy? He has proclaimed President Wilson responsible for the conditions that he described. Others have done the same. In view of this why should the playwright be blamed for adapting the material to his medium? Can it be that the villains of the President had to see these things on the screen before realizing how truly despicable this form of attack appears to most people?"

The exposure of the character of this putrid film should, says the Evening World, prove a sharp lesson to Republican campaign leaders. "The whole affair puts a stigma upon Republican campaign methods."
