S. F. Bulletin: From the huge Federal wireless towers a wireless record, the second within a week, and which will stand out in the history of radio telegraphy, was made last night.

For more than half an hour operators on the two vessels conversed, exchanging the news of the day and making records of the weather both here and in the waters in which the liners were located.

FOR SERVICES RENDERED, NOT FOR PROMISES BROKEN.

I do not doubt that the people of the United States will wish the Democratic party to continue in control of the government. They are not in the habit of rejecting those who have actually served them for those who are making doubtful and conjectural promises of service.
