ROUND-UP ASS'N HELD MEETING

Plans Already Started for a Bigger Show in 1917 With Adams Manager.

DATE SET FOR JULY 2, 3, AND 4, 1917

Albany Will Bring Back Some of Same People and Other Big Attractions.

The Albany Round-Up Association held a meeting last evening in the offices of Ed. Bailey, secretary, to finish up the business of the late round-up. The report of the secretary showed a satisfactory balance in the treasury. There is a balance of about \$1,500 in stock subscriptions which will be left in the treasury to be used in improving the grounds for next year.

Bills were audited and allowed. Clarence Adams, who managed the show to the entire satisfaction of the directors, was reimbursed about \$500 which he lost in staging the round-up. Adams brought a \$10,000 show to Albany this year, and it proved to be much larger than he had figured on, costing him more for board for cowboys, feed and keep for horses and cattle than he had planned. But the directors were glad to make up the difference.

Dates for the 1917 Round-Up were set for July 2, 3 and 4, 1917. A verbal agreement was made with Adams to take charge of the show again, and he promises to bring back practically everything he had here this year with a greater array of talent, horses and cattle besides. Over \$6,000 will be given away at the 1917 show and it will be one that will go down in history as the biggest round-up ever held in the west.

This year people smiled when they were told that they would see a better Round-Up in Albany than was seen at Pendleton. But the truth was told and better time was made in the races, more events were staged and a really better round-up was pulled off here than Pendleton is able to boast of. All the cowboys said as much and people who saw both shows agree with that fact. But the 1917 show will eclipse anything else ever attempted here. Albany people should buy postcards of the round-up and mail them to their friends in other places. They are on sale at two different stores. The moving pictures, showing at the Globe tonight, are splendid advertisements and will do much to advertise the show.

Among improvements contemplated for next year are the erection of stock sheds, the reconstruction of the grand stand, and other improvements on the grounds. Work will be started this fall and everything will be ready for next year.

WAS ON WEST POINT.

Eugene Has the Distinction of Having a Man Who Escaped the U-53 Tragedy.

F. Taylor, seaman, preferring dry land to the dangers of the sea in time of war, arrived in Eugene today and went to work as a member of a Willamette-Pacific construction gang. He was recently a member of the crew of the West Point, sunk by a German submarine off the New England coast, as shown by his discharge papers dated June 30.

Taylor was one of the crowd of two score who gathered about the campfires on the streets this morning where thick slices of ham were sizzling in the open pans and the wash-tub of coffee was bubbling over another fire. As the newspaper was passed around with the stories of the activities yesterday of the U-53, Taylor told of his experiences as a merchant sailor for the past two years.

He said that the West Point was the fourth ship on which he had seen service to be sent to the bottom.

The spectacle of Mary Beresford, the heroine of "The Stepping Stone," the new Triangle-Ince release starring Frank Keeman and Mary Boland, aiding her unappreciative husband in his upward climb to success, is going to strike a responsive note in the hearts of many women, and perhaps awaken consciences of some careless men, who see it at the Globe Sunday.
