

308 X YES IS A VOTE FOR YOUR CHILDREN

ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State.

Of more than 6,000 school teachers in the public schools of Oregon, but 13 per cent have been trained for their profession of teaching in Normal Schools.

It is a well established fact that our one Normal School cannot supply the needs of the entire state.

That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

GIVE EASTERN OREGON SQUARE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 39 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 877 students as against 91 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

ONLY COSTS 4 CENTS PER \$1,000

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 25th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Western Normal, and practically all of the leading educators of the State. J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training."

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 6,000 or more population and having enough grade pupils for teaching practice.

VOTE RIGHT

By voting YES for No. 328 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states. Vote YES for No. 308.

STRIKING IMPROVEMENT.

Bank President Says Conditions are Good, that the Banks are Overflowing with Money.

Portland dispatch: You can safely say that business and financial conditions in the Pacific Northwest are improving every day, and are now quite good."

These words are those of A. L.

EVERYBODY interested in the organization of an Art Class here please leave name and address at the Albany Art Craft, or write me at 218 N. 11th St., Corvallis, Oregon
JOSEPHINE ARMSTRONG

Mills, president of the First National Bank.

"Some time ago I made the assertion that business was much better in the Pacific Northwest," says Mr. Mills "and I am more convinced of it today than ever before."

"There has never been so much money brought into this section from the outside world as during recent months. Our wheat is selling at the highest prices known, we had a very big crop of it; all farm products are commanding good prices and taking all lines into consideration, I see not the slightest cause of complaint."

"The banks are overflowing with money. Our deposits are the greatest since the bank was organized and we are willing, no, anxious, to put it into circulation. Any business man who has legitimate need for money can get it in abundance; the more he needs and takes the better for us. We are turning no one down who has the

"PURITY"

20 Players—150 Dancing Girls—Barefooted and Barelegged—Draped in Flowing Veils—A Score or More of Miss Munson's Most Celebrated Poses in the Nude, All Staged Amid the Grandeur of Nature and the Glorious Handiwork of Man.

What Men of Authority Say:

She has a wonderful figure, with natural grace and ability for posing. While the wonderful natural scenes in which Miss Munson has been photographed for "Purity" have given her beauty an ideal setting.—Augustus Lukenan, Sculptor.

"There is nothing in Miss Munson's poses in the nude that should wound the sensibilities of the most Puritanical person. From an artistic standpoint "Purity" is perhaps the most beautiful screen production I have ever seen.—Albert Jaegers, Sculptor.

Miss Munson's work, particularly in the scenes in which she appears in the nude, is of exceptional quality. None but prudes could find anything suggestive in the picture. I consider "Purity" the most unusual screen production I have ever seen.—Adolph Weinman.

we are trying to discover places where it can be put at a profit. We want to loan money to business interests, not only for the good it will do business generally but for our own sake. A bank does not want to keep money in its vaults. It must loan it to make money for its stockholders.

"Our country is getting more prosperous every day, and the outlook is even better for the future."

EUGENE IS TO HAVE LOGANBERRY FACTORY

Will Incorporate for \$25,000, and Erect Factory this Winter Ready for Next Year.

Stock subscriptions are being made by local capitalists for the organization of an exclusive loganberry juice factory, which it is proposed to erect in Eugene this winter, and handle the crop next year. The subscription lists are being circulated by James Fullerton, who has been taking particular interest in the development of the loganberry business, and by I. P. Hewitt.

"We were out for a short time Sat-

urday, and met with most encouraging success," said Mr. Fullerton this morning. "We plan to incorporate a company with a capital of \$25,000, with shares at \$10 each. As soon as we have \$6,000 subscribed we shall call a meeting of the stockholders and proceed with the incorporation of the company, an elect its officers. One man has taken fifty shares already."

"With \$6,000 we can secure the necessary machinery and get our factory equipped."

"We are making this a straight company proposition, and not a co-operative concern. We intend to contract with the farmers and pay them straight \$70 a ton, or 3 1/2 cents a pound for their berries, and well will do the manufacturing and marketing."
