The new line will be more convenient for the service.

## WONDERFUL BIRTH OF A NATION AT THE GLOBE

Being Given With Orchestral Effect To-day and Thursday Afternoon and Evening.

D. W. Griffith's mighty spectacle "The Birth of a Nation," began its engagement in Albany at the Globe theatre this afternoon, and will give another performance tonight and two tomorrow.

Nothing like this wonderful attraction has ever been seen upon the local boards. It is given here exactly as it is being presented in New York City where the big drama has broken every record in the stage history of the first city in the country. In addition the piece has piled up record engagements in Chicago, Boston, San Francisco and Los Angeles.

It covers a wide range of American history and touches only the highest points of interest in the great events that led up to and terminated the Civ-

il War. The force that slavery played in producing this crisis is traced from its inception to its abolition. While the basic theme is historical in its foundation its intent is the fundamental one of true drama. The forces which make for these results have been marshalled upon a larger scale than was ever dreamed of before. Where directors of vast spectacle have dealt with hundreds in the past Griffith employs thousands. 18,000 people fill his stage which has a vast territory for its background. 3,000 horses pass before your view in wild dashes over miles of country roadway. The decisive battles of the Civil War are reproduced in faithful detail and you see these conflicts fought again, just as they were waged 50 years ago. Cities were built up only to be destroyed to lend force and verity to the dramatic narrative.
