An Auto Accident—

About 4 o'clock yesterday evening two autos came together at the corner of Fifth and Ferry streets, doing but little damage to either machine. Two girls were driving in one of the cars, and a man with two passengers were in the other. The only damage apparent to either machine as seen by passersby were two broken lamp lenses of the car driven by the man. Both left the scene under their own power, and both were equally injured with the other.

Recovering from Burns—

Mr. Byars got up first and made a fire in the fire place. Mrs. Byars got up later, and as she stood with her back to the fire the draft drew her dress into the flames and she was soon burning all over. The fire was put out as soon as possible, but not before Mrs. Byars was badly burned about the body. She has been confined to her bed since.

The American Beauty—

The pinnacle of joy is in the performance of a labor of love. It is this condition, this something, that makes the scenes of the painting of Ruth's portrait in "The American Beauty," the Pallas-Paramount photoplay coming to the Globe Wednesday, scintillate with an appealing charm. To the two untiring workers, the artist, and the beautiful model it is a labor of love. She who loves the painter. He who loves the painting. The story does not go ahead in the sequence but unfolds in a way baffling to the expectations and then ends in a thoroughly pleasing manner.

Albany College Athletics—

The report that Albany College had decided to retire from intercollegiate athletics is incorrect. The college has not intention of doing so. The Fed system does not appeal to the students here. The value of athletics is appreciated in the college and though the closing football system is not satisfactory, it is the intention to retain athletics and advance them as much as possible.

Cast off the Yoke that is holding you down

We wish to impress upon every man and woman in the wage earning class, that buying merchandise on credit is like paying for a dead horse. It keeps you in the same old rut from one month to another. Let us be instrumental in keeping you on the right road. By paying cash for your merchandise, we know and claim that we can save you fully from 25 to 33 1-3 per cent on every article you buy at the Golden Rule. How can we do it? Here is the solution. In the first place we do not credit, we deliver no goods, we don't charge you for your neighbor's debts. In the face of this we have the mighty buying power of 125 Busy Golden Rule stores to back up. The average wage of the working man today is approximately \$500 per year. If we save you 33 1-3 per cent or one-third of it which means a net saving to you of \$266.66 1-3; something worth your while looking into. Think it over, Mr. Working man.
