NATIONAL CONVENTION

President's Daughter Presides Over American Civic Association

(By United Press)
Washington, Dec. 13.—With talks by Miss Margaret Wilson, the president's daughter; Percy Mackaye, poet and playwright, and Dr. Henry E. Jackson, of the United States Bureau of Education, the 12th annual convention of the American Civic Association opened here today.

Miss Wilson presided at the afternoon session, which was devoted to a discussion of the use of the schools as a community center. She made no extended talk, however. Dr. Jackson, of the Bureau of Education, discussed the same topic at length and Mr. Mackaye spoke on the growth of the community drama.

The delegates of the convention will be the guests of the Washington Real Estate Board tonight at which time officials of the War Department are expected to outline the plans of the Federal government for the improvement of Potomac Park, the District of Columbia's future municipal playground.

PRACTICAL GIFTS

This year make the gift both practical and useful—Surprise the one who receives with a remembrance least expected and show your greater thoughtfulness

A pair of colored Boudoir Slippers will please her, and Krepawa Slippers will gratify him; or a pair of Shoes for her would certainly be acceptable, and so different.

McDowell Shoe Co.

U. O. INSTRUCTOR ILL

Mrs. Thorne Has Strange Case that is Puzzling the Best Physicians.

Eugene, Oregon, December 12.—A strange nervous case resulting in unconsciousness and partial paralysis threatens the life of Mrs. Catherine Thorne, instructor in the department of public speaking, dramatic professor of the university of Oregon. Mrs. Thorne has been ill for some time but it was not until tonight her case took a serious turn and she is now battling for life. Physicians are at a loss to explain her case. Three doctors and a trained nurse are in attendance.

For a considerable time Mrs. Thorne has been unconscious and she fails to recognize faces and is unable to speak intelligibly when consciousness does return for short periods of time. Part of her face is partially paralyzed.

One explanation advanced by attending physicians is that a growth exists on the bone about the skull caused by a concussion probably due to a fall.
