FOR COLLEGES

It is being feared that the Rockefeller Foundation and the Carnegie Endowment may prove a menace to the independent colleges of the country, as there is a growing impression that the move is on to dominate the smaller colleges.

The following is said to have been written by W. Hall, a McMinnville boy, a composition on breathing. Breath is made of air. We breathe with our lungs, our lights, our liver and our kidneys.

A little slush now and then makes us appreciate what people in some parts of the east get most of the time winters. Some men are built just right for running self-winding clocks.

Exchange—A duck doesn't carry an umbrella. Aand an umbrella has no use for a duck. Wives. Solomon was right. A man ought to have a flock of wives or none.

How great a part control of education has had in molding the thought and destiny of a nation is shown by Bishop Candler, of Georgia, in a pamphlet which Mr. Chamberlin presented to the Senate.

In like manner it would be possible for Mr. Rockefeller to fill the minds

of the new generation with ideas of the beneficent work of the Standard Oil Company, and for Mr. Carnegie to represent big combinations of corporations as the height of economic wisdom, while both could be depicted to future generations as unselfish public benefactors.

MISSITS

Good, the legislature will not meet again for two years. Then it will raise the 6 percent limit to the edge. If this keeps on where will it be in 20 years.

But sufficient for the day is the evil thereof.

An interesting thing will be the vote of the people on the new bonding road bill. Just now it is hardly known how the masses will view it.

The man who is crooked gradually loses all his friends.

It is a universal rule that murder will out.

The following is said to have been written by W. Hall, a McMinnville boy, a composition on breathing.

Breath is made of air. We breathe with our lungs, our lights, our liver and our kidneys. If it wasn't for our breath, we would die when we sleep. Our breath keeps the life going through our nose and when we are asleep. Boys that stay in a room all day should not breathe. They should wait until they get out-of-doors.

A little slush now and then makes us appreciate what people in some parts of the east get most of the time winters.

Some men are built just right for running self-winding clocks.

Exchange—A duck doesn't carry an umbrella.

Aand an umbrella has no use for a duck.

Wives. Solomon was right. A man ought to have a flock of wives or none. Get a hunch and they'll fight among themselves and let you alone.

Solomon went the limit. He got

a thousand. And it makes Nat Go win sore every time he thinks of it. He selected them by the dozen and married them en masse. Whenever the license clerk went home with writer's cramp, his wife knew who to blame. It got so bad that when he saw Solomon coming he hung out a sign: "HOW MANY?"

But Solomon was right. Even if he did wear a beard and a bathrobe to the office. He was right. G.M.
