AMERICANS TEACHING BRAZIL FARMERS HOW TO FARM

(By United Press)
Rio de Janeiro, Mar. 1.—(By mail)—Nine agricultural experts recently employed in the United States by the Brazilian Department of Agriculture, have just arrived in Brazil. According to the story told by Sr. Oliverira Castro, the Brazilian government's agent sent to employ the experts he had extreme difficulty in finding men willing to go to Brazil because all the prevailing ideas in the United States that revolutions were matters of daily occurrence. After a great deal of effort and repeated assurance that revolutions took place only in the story books and not in actual Brazilian life, he induced Professors O. T. Clawson, H. H. Cardinell, W. C. Johnstone, J. E. Blohm, E. Pithman, R. H. Cook, Maurice Blohm, Dr. K. E. Quantz and Dr. B. T. Harvey to leave with him on the steamer "Minas Geraes." When the "Minas Geraes" arrived in Pernambuco, the first Brazilian port, and as she hauled up to the docks there was the sound of rifle firing from within the city. There was great curiosity on board the ship, particularly among the Americans, as to what the disturbance meant. A venturesome ship's officer brought back the news that a revolution was in progress. It turned out later that it was a mere celebration over a minor election and nobody was hurt. But as Sr. Castro expressed it, "the Americans clapped their hands to their heads."
They arrived safely in Rio de Janeiro and are busy showing the Agricultural Department new stunts in fruit, grain, tobacco and other kinds of culture.

MILITIA MAN BOOSTS DODGE BROTHERS CAR

Dodge Brothers Cars in use by the U. S. army continue to win favorable comment.

J. R. Whitlock, of Summit, N.J., who served on the Mexican border with the New York troops, is the latest to give Dodge Brothers car a boost.

He is quoted in a New York paper as saying:
"There is nothing like them in Texas and we had a good variety of cars in use at our division headquarters at that. I drove the quartermaster's Dodge more than 5000 miles over the worst imaginable roads and through miles of adobe mud which was frequently under a layer of water. Only once was the car unable to pull itself out and then only because of a broken chain. It was amazing the way those Dodge cars stood up under such treatment as they received. I started driving with little appreciation of the Dodge. I returned filled with enthusiasm."

HOOSIER KITCHEN CABINET

THE VITAL SECTION IS EXCLUSIVE

The part that makes a cabinet a real helper—that saves you time, energy and miles of steps—is exclusively the Hoosier idea. Six of its chief attractions are:

1. The All-metal Glass Front Flour Bin.
2. The Gear-Driven Shaker Flour Sifter—makes flour light and fluffy.
3. Scientific Arrangement—articles needed most frequently easiest reached. No partitions to chop up table space.
4. Revolving Caster Spice Jar Rack.
5. Ingenious, Big Capacity Sugar Bin—holds more than twice as much as most bins.
6. Doors with Handy Trays that hold small utensils, or the new Roll Doors without extra cost.

Hoosier has places for 400 articles, all within arm's reach! Forty labor-saving inventions are ready at hand for instant use.

HOGS REMAIN FIRM AT PORTLAND STOCK YARDS

North Portland, Ore., Mar. 20.—Offerings of cattle yesterday totaled about 900 head. The market had rather a slow draggy opening at 10c to 15c lower prices, but the late trading rallied and the market closed rather steady to last week's quotations. Closing transactions were the highest of the day. There was a good many heaves in the run, probably the largest offering for many months. The quality of the run as a whole was not very good, there being only three of four loads of real prime heaves here. Several loads of prime grain fed steers crossed the scales at \$9.85, which equalled the record these yards established two weeks ago. Several other bunches sold at \$9.50. The big end of beef steers sold from \$8.50 to \$9, the most of which were very light. Good fat steers brought from \$8 to \$8.50, while the medium kind sold from \$7.50 up. There was a good trade in feeders, a number of loads being sold from \$7.75 to \$9. Several small loads of heifers sold at \$8.25, while the best cows sold from \$7.50 to \$8. The market on the stuff was fully steady with last week. Most all the cows were the medium grade, selling from \$6.50 to \$7.75. Ordinary light dairy cows brought from \$6.00 to \$6.50, while canners sold around \$5. There were only a few good bulls here yesterday. They sold steady bringing \$6.50 to \$6.75, while a few ordinary bulls brought from \$6 to \$6.50 and several common light dairy bulls brought from \$5.00 to \$5.50.

There was rather a moderate supply of hogs here again totaling about 1300 head. Demand was good and market rather active, although outside demand was limited to a few buyers. Prices generally were 10c higher than at last weeks close. One load of prime light hogs bought for \$14.50 but the bulk of the sales were made at \$14.25 to \$14.40. Pigs were in good

supply, selling at \$12.75 to \$13. The sheep market was devoted to but one load of mixed ewes and bucks which sold at \$9.75. The demand for sheep is rather limited, packers present needs are well supplied as they are having a very slow outlet for their dressed product. No good lambs have been received for over a week. Lambs are being quoted from \$12.75 to \$13.10 with good yearling wethers at \$11.25 to \$11.75; shorn stuff selling at 1 1/2 to 2c under quotations.

If You Are a Consumer of Coats, Suits, and Skirts It Will Pay You to Read This Statement

Many stores are telling you of the great values they offer to the public simply on account of their consolidating buying powers etc. They never tell you their selling power.

While this is only the beginning of our second season carrying ready-to-wear apparel, we have sold from Jan. 1, 1917, until this statement goes to press, more skirts than all the stores of Linn and Benton counties combined.

To prove this statement, we have the name of every purchaser on our books. We will give \$10.00 in gold to any charitable institution if any one proves that above statement is not true.
