**AUTO INDUSTRY ENORMOUS
IN THE UNITED STATES**

An Albany man discovered the following interesting facts regarding the automobile industry in a leading financial journal. The article stated that there were manufactured in the United States in 1909 80,000 cars for pleasure purposes. No auto trucks or motorcycles were counted. In 1911 the number made was 185,000 and in 1912 it grew to 250,000.

Three years later in 1915 the manufacturers were turning out 803,000, and last year they made the enormous total of 1,303,400 cars. The number in 1917 will exceed this.

In 1915 there were employed in the industry 700,000 people. The amount of steel, leather, cloth for tops, hinges, etc., used was staggering.

In the United States there is one car for every 40 inhabitants on the average. In Iowa the number is one to every 19, while in the city of Los Angeles one person out of every eight owns a car. In Oregon the average is about one to every 25 inhabitants.
