

The finger-tip of Paris touches each Printzess garment

Have you received your copy of this beautiful Printzess Art Portfolio?

IN accordance with our unchangeable store policy—that of securing for our customers the very best merchandise that money can buy—anywhere—

We have had the makers of the famous Printzess tailored garments produce for us an assortment of the most unusually pleasing coats and suits that have ever been offered in any store—or at any season.

Each Printzess suit and coat shown here strictly follows those exclusive style lines dictated by the great Parisian fashion authorities as correct for Spring and Summer, 1917.

Each has been cut from modish fabrics of pure wool and silk.

Each has been finished by tailors who are masters of their craft.

And each is priced so pleasantly that you will be agreeably surprised.

This display of Printzess garments forms, beyond question, the style event of the season in this community, and we most cordially ask you to be present.

HAMILTONS'
CASH VALUES WORTH WHILE

The Printzess Coat (No. 1) is fashioned from an exceedingly fine silk and wool Duvetyn, in Blue, Gold, Green and Purple, and is lined throughout with Pussy Willow.

The prerogative of style, the straight side panel and the straight lines of the entire garment are Parisian notes.

The design of this Printzess Suit (No. 2) is governed by the "Sports" motif. It gives graceful lines to any sized figure.

It is of Point Twill, in Rosalie, Tan, Navy and Gray. It has desirable Persian-patterned silk top collar, and is lined throughout with fine all-wool fabric.

GARDENS ARE POPULAR IN WAR TIME

Assistant Sec. of Agriculture Wages Home Preparedness Against High Food Prices.

By Carl Vrooman, assistant secretary of Agriculture, Member of the National Emergency Food Garden Commission.

(Special for the United Press) Washington, April 4.—National preparedness for war has ceased to be the theme for argument. Congress and other Federal agencies are now occupied with questions of ways and means. However, today we face the question of individual preparedness, about which little has yet been said, but which is as vital a question as the other.

War is not only a matter of gun-powder and lead; it is just as much a matter of food and forage. Comparatively few are in position to serve their country in actual firing line but there is no man, woman or half-grown child, who can not serve on the forage line, if only by tending a bed of green vegetables. Such service may not be exciting; may not seem glorious—yet in the long run it may be as useful as the service of the man who dies for his country on the field of battle. It is not inconceivable that the time may come when such humble service, loyally performed by thousands of patriots a thousand miles away from any battle line, may turn the balance upon which hangs our very existence as free people.

We produce more than enough food for ourselves, but in war there will be danger that people may starve because our food reserves are in remote elevators and storage plants and our railroads are too busy handling troops and munitions to carry food to the civilian population. Thus the government would be embarrassed by the problem of meeting local shortage of food at a time all its energies should be focused upon national defense. Incidentally, from time to time prices of some necessities of life may become prohibitive, even though food be available. Hence it is as important that the individual meet the problem of home food supply as that congress should look to national feed preparedness.

Individual preparedness in cities should take form this spring by the planting of hundreds of thousands of floor-yard gardens, where before there was only sod or bare earth. In the country it should take the form of more intensive cultivation, even of a measure of training on the part of women and girls that they may be prepared to ride the sulky plow or the binder if the worst comes. Everywhere it should take the form of scrupulous care in the production, use, and conservation of foods.

Stuart Holmes, who will appear here soon in Hawthorn's "A Scarlet Letter."

of evangelism. New York awaits him without much to say. It is inordinately curious to see what he looks like and how he acts.

Broadway and Boozie have paid little attention to him. He may stir up a fight with the Great White Way after he gets started though. Among his most ardent supporters on the financial side here is John D. Rockefeller, jr., and Mrs. Rockefeller.

Sunday has said he will be a bit tamer here with his shag and his slams than elsewhere. New York wonders why. It rather expected him to tear loose and go the limit and over. But Sunday says slang is out of use mostly now and he thinks there are few good theatres and cabaret restaurants too. Billy has promised to turn his tabernacle into a big recruiting station in case the United States goes to war with Germany. His son George M. Sunday will join the aviation corps, he says.

PROGRESSIVES WON'T INVITE T. R. TO ST. LOUIS

(By United Press) St. Louis, Apr. 3.—Universal military training, nation wide prohibition and the unity of liberals of all parties will be the chief aim of the Progressive party's national conference here next Tuesday. Colonel Roosevelt has not been and will not be invited to attend.

Plans today were under way to have committees of the Democratic, Republican, Socialist and Prohibition parties confer with a committee of the Bell Moose and discuss the formation of a party of Liberals to stir the political pot of the country into real boiling condition. Albert D. Norton, once a republican judge, later progressive gubernatorial candidate in Missouri and during the last Presidential campaign connected with the Wilson speaking bureau, is leader in the conference.

MARKET REPORT
The prices given in the local quotations are those asked by the wholesaler from the retailer for fruit and vegetables. All other prices are those paid the producer. List corrected daily.

DRESSING A WOUND.

Use Soap in an Emergency, and It Will Prevent Infection.
The danger of infections, even from slight abrasions of the skin, is appreciated so thoroughly today that no intelligent person will willingly neglect slight cuts or bruises where it is possible to give such injuries first aid treatment with some kind of dressing. Frequently, however, there are none of the usual remedies at hand, but a cake of soap is almost always available, and this substance makes an excellent dressing, as European army surgeons testify.

The favorite substance of the surgeons for cleansing wounds before the days of antiseptic dressings was a solution of castile soap. The usual method of dressing a wound at that time was to wash it thoroughly with the soap, allow the surface to dry and then apply lint and bandages. The surgeons removed the germs from the wound, but as the bandages and dressings were not sterilized these dressings frequently contained bacteria which infected the wound. If the surgeon had gone one step further with his castile soap dressing and dipped his lint into the soap before applying them or rubbed the moistened soap into the lint his treatment would have been much more effective.

Every one should bear in mind, therefore, that any kind of soap makes a good emergency dressing and should be used as a covering for freshly injured surfaces if nothing better is available. A strip torn from a handkerchief, with the moistened soap rubbed into the meshes and bound over the wound, will prevent infection from outside sources. And if the wound has been thoroughly cleansed with soap and it is probable that no other dressing will be required.—Los Angeles Times.

"SAFETY FIRST" BEGINS TO GET RESULTS IN U. S.

Washington, Apr. 3.—"Safety First" which the country has been hearing so much about for several years, is beginning to show substantial results in the mortality among miners, according to the Bureau of Mines here today.

Mines throughout the United States have been exacting a yearly toll of about 3 1/2 men in every 1,000 employed. The latest figures available are the lowest in 8 years and the prospect is for still greater decreases.

KNOX BUTTE NEWS AND PERSONALS

Knox Butte, April 3.—Mrs. R. Raymond who has been visiting at the home of her mother Mrs. M. Mallon, left Friday for her home in Oakland, California.

Mrs. H. Towns and little son, Theodore, are visiting at the home of Mrs. Towns mother, Mrs. Marai Miller. Theodore is recovering nicely from a recent operation for appendicitis.

Mrs. M. Chambers and Miss Lettie Chambers of Albany were guests during the week-end at the J. W. Chambers home.

A. J. Caldwell made a business trip to Corvallis Monday.

Ferris Williams, a member of the Coast Artillery Co., went to Albany Sunday morning to be with his company.

A number of the farmers of this vicinity today, are going to the farm sale of Booth and Ingram, east of Crabtree. The hog list was the main feature with them.

EVERYTHING READY FOR BILLY SUNDAY'S INVASION

(By United Press) New York, April 4.—Billy Sunday's gigantic tabernacle is all ready for him to start his fight on the devil in New York at Broadway and 168th Street Sunday morning. The big choir is organized. Every citizen, large and small; every working girl, every boy, every laborer, every scrub-woman, has been told and told of Sunday's coming. Thousands of them have been organized into bible classes, personal workers, singers and other assistants to the redoubtable Billy.

This New York campaign is expected to be Sunday's greatest triumph or his worst tumble from the pedestal
