SOCIETY**McMURRAY-TAYLOR
ANNOUNCEMENT**

An announcement of more than ordinary interest was made yesterday when telephone invitations were received by a number of friends of Miss Gertie Taylor for her marriage to Mr. W. Robert McMurray of Portland. The wedding will take place in the First Presbyterian church Saturday afternoon at 4:30 o'clock.

The announcement was a surprise to Miss Taylor's friends, for the wedding was not expected to take place until some time next winter. However, Mr. McMurray who has joined the ambulance corps, expects to sail for France in the fall and the situation caused them to change their plans.

Miss Taylor is the youngest daughter of Mr. and Mrs. George Taylor of this city, and a sister of Mrs. H. M. Hawkins, whose wedding was an event last fall. She is a graduate of the University of Oregon and a member of Kappa Alpha Theta Sorority. After her graduation she taught in Brownsville high school for two years being transferred to Portland this spring.

Mr. McMurray is a son of Mr. and Mrs. Wm. M. McMurray, his father being General Passenger Agent of the O-W. R. R. & N. railroad. He attended the University of Oregon, where he met Miss Taylor, and was a member of the Kappa Sigma fraternity. Both Mr. McMurray and Miss Taylor were prominent in student affairs.

Presbyterian Club Entertains
An enjoyable time was had by the

members of the Blue Flower Club of Grace Presbyterian church present last Saturday afternoon, when their teacher, Mrs. I. G. Koots, was hostess. A most delicious repast ended an afternoon of dainty work, conversation, etc.

Oakville W. C. T. U.
The Oakville W. C. T. U. met with the president, Mrs. John Archibald, Wednesday afternoon, May 23.

After the regular devotional exercises a good program was rendered. First a reading by Miss Alinda Blevins. A number of readings were given by the Bell Plane teacher, Mrs. Allen, which were much appreciated.

A friend of Mrs. W. A. McBride, Miss Coffman, of Philadelphia, sang a number of selections. Rev. F. L. Lee closed with a very earnest prayer. Rev. Lee now lives in California, but once belonged to the Oregon E. conference and preached for different congregations in this county.

After the program ice cream and cake were served. The contribution taken amounted to \$5 and goes to Red Cross work. More than thirty persons were present.

PAROLE BOARD APPOINTED

Salem, May 28.—Governor Withycombe today reappointed John Logan of Portland, Rev. James Elvin of Salem, members of the Parole Board under the Act reducing the membership of the board from five to three. The governor's secretary is the third member.

A SMALL WATCH

One of the most modern Bracelet Watches is on display in F. M. French & Son's show window. The movement of this tiny watch is smaller than a ten-cent piece. It was made by the Gruen Watch company in Switzerland and is valued at \$100. It is called the "Lady Gruen."

Kathlyn Williams, who will appear at The Globe next Wednesday in "Redeeming Love."

EYES IN PORTRAITS.

Why Some Always Seem to Gaze Right at You and Some Never Do.

You probably have noticed that some faces in pictures seem to follow you, also that in other pictures there are faces which are not looking at you, but no matter where you walk, even though it be in the direction in which they seem to be looking, you will never find the face looking at you. Indeed, faces in pictures are either looking at us from wherever we look at them or else they never look at us from wherever we look at them. The same is true of photographs.

The rule is very simple. If the person who was being painted or photographed was looking at the painter or the camera, then wherever you stand he will seem to be looking at you. If he was looking on one side, then wherever you stand he will seem to be looking on that side of you. This works very queerly if you have a group of people who were all looking at the camera when they were photographed. If you look at the photograph from one side they all seem to turn to follow you and then to turn back if you look at it from the other side. But if they were not looking at the camera you can never get them to look at you.—Kansas City Star.

THE MAKING OF PAPER.

Thrift Was the Order of the Day When Only Rag Stock Was Used.

It was in the year 1807 that the first wood pulp paper in the United States was manufactured, and it would be difficult to estimate the benefit this has conferred upon the world, for it was a step in the dissemination of knowledge, particularly current news, just as was the invention of movable types and the printing press.

It will be remembered by many still living with what care every rag was saved to be converted into paper in the days when only rag stock was used in its manufacture and how the paper, after it had served its purpose at the printer's, was carefully put aside for wrapping parcels. Those were days of automatically imposed thrift, which were followed by disregard of economies so widespread that already, after only half a century, we are confronted by a prospect of serious shortage of supply of the new raw material.

Just as the supply of rags in the sixties would not have sufficed for growing needs, so it appears that soon there will not be enough wood pulp to go around. But we have grown so accustomed to finding substitutes when we had to have them that the world is not alarmed.—Portland Oregonian.

**Principles in
Shoe Selling**

Those who buy their Shoes here will always find them attractive in price, comfortable in wear, and consistent in service. That's the secret of the success of this store.

You can buy Shoes here as low in price, sometimes lower, than you can elsewhere—quality being equal.

You cannot buy Shoes here of inferior service just because the prices look attractive—they must have a real standard of value.

We firmly believe in these principles as the foundation of our store's growth, and never will be allowed anything to interfere with our policy of giving honest values, and proper service to every purchaser.

Honesty Is Our Policy

THE DEADLIEST POISON.

Curare, Whose Secret is Known Only to the Abors of India.

The cranks who not so long ago conspired to murder Premier Lloyd George were going to employ curare, the kind made by the Abor tribesmen of India, which is the deadliest poison known to man.

It is believed in London, where curare has been extensively studied, that its chief ingredients are snake venom and certain distillations from decayed corpses. It is even asserted that the Abor tribesmen test the strength of curare by injecting a little into a vigorous tree. If all the leaves of the tree do not fall off within twenty-four hours the poison is considered inefficient.

The Abors use curare in a simple, primitive way. They dip their arrow tips in the fresh poison. The slightest scratch from one such arrow tip means certain and immediate death.

The English conspirators, it will be remembered, planned to attack Lloyd George in the Abor way, shooting curare poisoned darts at him from an air gun.

The last case on record of curare murder occurred in Vienna, where a young doctor recently was sentenced to life imprisonment for supplying a young married woman with curare. She touched the poison to a scratch on her aged husband's arm, and he died in great agony.

Chickens are the only living creatures immune to the deadly effects of curare.—Detroit Free Press.

Saving Daylight.

The best way to save daylight is to get up early in the morning. The best ways to get up early in the morning are:

First.—Go to bed early at night.
Second.—Get an intermittent alarm clock and put it several yards away from the bed.
Third.—Stay up.
If every American followed these simple rules there would be far more daylight in this country than there is now.—San Francisco Bulletin.

Bad Memory.

Flatbush.—You know he's awfully forgetful.

Bensonhurst.—Really?
"Oh, yes. Why, the day after he was married he left a piece of cord around his finger so he would not forget it.—Yonkers Statesman.

Ambition.

"Pa, what is ambition?"
"Ambition, my boy, is that spirit which prompts a young man to work hard so that he can some day stop working hard."—Detroit Free Press.

Unselfish.

"He is always thinking of others, isn't he?"
"Yes; planning how he can get them to do something for him."—Life.

Do your trading where the prices are the same day after day—not one price Monday, another Tuesday—

When an article is once marked in our store it sells at that price until every bit is sold. You and your neighbor are treated alike. No favorites here—And you'll always find the price less.
