SAVE TIME

yes, not only time, but steps and money and worry and waiting—save everything that is of value to you by using the telephone to do your shopping.

The merchants whose ads are on this page have installed telephones for your convenience, and the fact that they have their advertisements on this page means that they are inviting you to use the telephone with which to buy goods from them. And it means further that they are prepared to take care of such purchases promptly and satisfactorily.

They want your business or they wouldn't ask for it. If they think enough of it to ask for it, they think enough of it to handle it so that you will be satisfied and buy again.
