RED CROSS DRIVE IS GAINING HEADWAY

Chairman Named for Each Town
and all Wires Are Laid for
Big Start Monday

The big Red Cross drive began in earnest last night in Tangent, Shedd, and Halsey with the organization of efficient committees for the campaign which starts Monday, June 18. The chairmen elected were Homer Speer, Tangent; H. C. Davis, Halsey; and C. J. Shedd, Shedd. The meeting in Tangent was conducted by J. A. Howard; in Halsey by J. S. Van Winkle; and in Shedd by Dr. Ellis. Wm. Eastburn, Miss Canfield and Miss Jones. There has been some discussion and misunderstanding as to the amounts allotted to each town. The territories were figured on the tax rolls and the amount is in proportion to the taxes paid. The sum allotted does not come solely from the towns named but from that community, the town being used as the center as a means of convenience. Four new chairmen for the Red Cross Drive have been appointed by the general chairman, A. C. Miller. He has appointed chairman of the Calipooa precinct, C. C. Bryant, of the Price precinct, Albyn Esson, of the Syracuse precinct, and Robert Torbet heads the Sunrise precinct. There will be a general meeting of the precinct captains and the assistants of Albany and the neighboring districts on Monday night at 7:30 at the Commercial club. At this time full instructions for conducting the campaign will be given and plans will be discussed for an efficient and successful Red Cross Drive.

SURGERY FOR AUTO TIRES.

Be Sure There Are No "Broken Bones" Before Mending the Surface. Surgery for a tire, in so far as it affects only the tread or skin, is simple, but after a rupture of the surface you should make certain that no "bones" have been broken" before proceeding with the treatment. It must be remembered that the layers of canvas cemented together—in a fabric tire—or the individual layers of cord—in a cord tire—form the main supporting skeleton, or framework. The rubber tread merely protects this framework from wear, as the tough skin on the ends of the fingers protects the bones and delicate nerves. If it happens that a cut from a sharp stone or piece of glass is sufficiently severe to penetrate the entire thickness of rubber covering on the tire and to extend through to one or two layers of canvas. If under those conditions only the surface is vulcanized, or "healed," but little will be accomplished, for the supporting fabric will be weakened at this point through the separation of the one or two layers, and a blowout will eventually result, even though the tire, so far as external appearances are concerned, is perfect at this point. A cure of this nature requires the services of an experienced tire surgeon, for a new section of fabric must be applied and vulcanized into place, or the broken ends of the cord must be fastened together in a manner requiring more or less expert work. The same result as a broken bone may be obtained by what is known in tireology as a stone bruise. This is caused by a sudden impact against a blunt object, such as a curved or round corner of a stone, which in itself is not sufficient actually to cut the thread of the tire, but which imparts so severe a strain to the fabric, or carcass, that several of the layers of canvas may be broken or bruised. This is a frequent cause of mysterious blowouts, which seem to come from within a tire having its surface in perfect condition. —H. W. Glauson, M. E., in Leslie's

JAPAN PEEVED AT UNITED STATES

England too, Perplexes Officials
By Refusal to Assist in
Advising China

JAPAN'S PARAMOUNT INTEREST SAID TO BE IN CHINA

American Efforts to Compose
Chinese Internal Difficulties
May Be Embarrassed

Washington, June 16.—Japan has refused America's request that she join the United States in her recent advice to China to compose internal difficulties. This developed following the receipt of advices showing that the British also spurned the American suggestion of joint action in the Chinese situation. Washington, June 16.—Japan is apparently sensitive and somewhat embarrassed because the United States did not consult her about the Chinese situation. Japan's paramount interest in China evidently influenced her to withhold her support of America's position. Great Britain's refusal also, perplexes the authorities. Britain's official reasons are not given. The United States secretly asked the Allied Powers to join in advice to China after the note was dispatched. Officials attempted to minimize the importance of these refusals. It is declared that it will probably embarrass further American efforts to compose Chinese internal difficulties. Authorities refuse to discuss the Japan angle. Japan is apparently resentful at America's course.

New Law Makes Any Legal

to Vote

There are three candidates for school director in the election which will be held Monday. Two are to be elected. This morning E. F. Wiles, one of the retiring directors, filed his petition with Clerk D. D. Hackleman for his candidacy, and a short time later Judge L. L. Swan filed his intentions to run. The other candidate is W. A. Eastburn who is running at the request of some of his friends, and who is in more or less of a receptive mood. He is making no fight but will accept the office and serve if elected. H. L. McElmurry, retiring chairman of the board, in a signed statement this morning, made it clear that he is not a candidate, but if he was elected he would accept. Mr. Wiles, whose short term expires this month, has been on the board a year and a half, following the death of J. L. Tomlinson. He has shown great interest in the work and has given the schools a great deal of his time. Following is Mr. McElmurry's statement: Notice to Voter of School District No. 5 I desire to announce to the voters of School District No. 5, that I am not a candidate for re-election as school director of said district at the school election to be held Monday, June 18th. That at my own request my name has not been ordered placed on the official ballot. However, I desire to thank the citizens of this school district for the honor they have bestowed upon me in my election to the term of office now ending. H. W. McELMURRY. The new law removed the property qualification and makes any citizen over 21 years old who has lived in the district for 30 days entitled to vote.

WOODEN-LEG MEDICAL CORPS IS PROPOSED

Albany Man Is Asked to Join
Corps of Helpers for Service
in France

Stowell Dawson, son of Fred Dawson, prominent local druggist, is in receipt of a letter from parties in Portland who want to organize a medical corps of wooden-legged doctors, druggists and nurses. Under the regular rules of the army or the Red Cross a man incapacitated by the loss of a limb would not be accepted. But a number like Dawson feel that they are as good as any other man and are willing to give their services to their country. In accordance with the plans advocated by the Portland man a regular unit will be organized if the officials will sanction it, and begin training at once for their work in base and field hospitals in France. Mr. Dawson, who lost his leg above the knee when a small boy, has done marvelously well without that important member. With an artificial limb he gets around as well as the average person. On long hikes he can hold his own with many a good man, and has made the trip down the beach from Newport to San Francisco, walking and earning his way clear through. He even played foot ball at Newport for two seasons, playing guard. "I am sure that the peg-legs could give a good account of themselves," said Dawson, "and besides, it wouldn't hurt so much to be shot through the wooden leg as through a good one." Spending Vacation Here—Guy Thompson of San Francisco, son of Mr. and Mrs. E. A. Thompson, is spending this month in Albany. Mr. Thompson is an electrician for the Sunset Limited.

HIPPODROME AND PICTURES MAKE FINE SUNDAY BILL

J. C. Lewis Jr. Returns With
With Two Other Good Acts;
Enid Bennett Stars

The Hippodrome bill scheduled for the Globe theatre for Sunday afternoon contains three headline acts. Albany people will remember Jimmie Lewis, the six-year-old child actor who entertained them in the little skit "Billy's Santa Claus," at the Globe a year ago. Jimmie with his father and mother and cute little sister, returns to the Globe Sunday and assures a packed house. Another big act is Lucy Gillette, who is undoubtedly the greatest woman balancer and juggler in the world. She does all kinds of difficult juggling feats. Keene and Foxworth are two clever colored boys billing as "Those Inky Boys," and they represent a singing and dancing act that is one laugh from first to last. Enid Barrett, the pretty little Australian actress, makes a charming boy in "The Little Brother". She dresses as a boy when her two brothers desert her, sells papers and is picked up by a kind man who sends her to school. He is not a bit sorry when he learns that she is a girl, and of course—but you should see the picture. The Triangle Comedy is "A Self-Made Hero," a scream all the way.
