An Electric Range
Is a Thing of Beauty

Something every woman admires and wants in her kitchen but not for beauty alone.

Because electric ranges employ no open flame for heat—they are clean and safe.

Because they are clean they are sanitary

Because they are not subject to the whims of dampers and drafts and flues they are reliable.

More than all else—modern housewives prefer and use electric ranges because they are economical and produce superior results with less trouble. Ask about the new cooking and heating rate—and decide to take advantage of the low price time payment offer before it expires.

Humor Found Everywhere.

Among those pre-eminently gifted with humor were Abraham Lincoln, Disraeli, Goethe and Heine, the late Lord Salisbury, Arthur Balfour, Dickens, Thackeray, Fielding, Shakespeare, Queen Elizabeth, Henry VIII., Charles II., Dr. Johnson, Charles Lamb, Emerson and Byron. The only persons who lack it altogether are madmen. Criminals as a whole are never without it. There is the case of one murderer at the bar in London who on being asked if there were any reason why sentence of death should not be passed upon him replied: "No; I am disgusted with the whole proceedings." Another in a similar situation on being asked whether he had a last request to make said, "Well, I should like to learn to play the piano."—Sir Herbert Beerstrohm.

Pleasures of Irritability.

Learn how to be irritable. When any one says anything to you always imagine he is trying to insult you. Few appreciate the innocent enjoyment to be had in sniping and snarling at those we meet through the day. Have things get on your nerves. If things get on your nerves you will find it an easy matter to be sour and snarl. After awhile you will find that most anything gets on your nerves, especially people who are happy and cheerful. The result? Some people are born irritable, others acquire it, and they all should have curses cursed upon them. —Sanctity Single.
