"Along the Road to Tokyo"

THE Ongawa Company in "Along the Road to Tokyo" present at Chautauqua a kaleidoscopic view of old Japan. The work of these Japanese artists has the finesse of animated art prints, quaintly knit together in a love story fantasy, accompanied by the lullaby croons and chants of the quaint native music, of Geisha girl and butterfly dances. The play is in characteristic musical setting, given with costuming and scenery of special importation. Mr. Ongawa is the descendant of the famous Samurais of Japan.

How can a merchant sell for less in July than in June and continue to pay enormous overhead expense? He either got too big a profit in June or is losing money in July. Think it over—Do your trading at the Golden Rule where the prices are the same every day in the year and that always lower than so-called sale prices.
