A REAL MYSTERY

A news dispatch from Pittsburgh breathes mystery and thrills such as we have not known since the war hardened us to surprises. It reports that 1000 men are wanted by the Westinghouse interests. These men are to be employed in a new plant, manufacturing a new kind of war munitions by a secret process. They must be men of unquestioned Americanism and of a high degree of skill in their line of work. They will receive twice as much pay as they are now getting. They will be furnished with opportunities for various kinds of recreation and entertainment. It sounds easy. But—these men must be willing to sign an agreement to remain imprisoned for ten months. They are to be cut off from all communication with the world outside of their plant. Only the workers and the officials engaged in its production will know until it is finished, just what this new thing is. It is rumored however, that this marvelous war implement was invented by Thomas Edison. The country has great faith in him. There's a chance for 1000 patriots! What more could they ask? A chance to serve their country with ample reward for their services, and with all the mystery heart could desire thrown in. The rest of us will wonder much and hope that at the end of that ten months, we'll be let in on the secret.

SUFFRAGE WHITEHOUSE DISTURBANCES REHEARSED

Washington, July 23—(U. P.)—Every militant suffrage disturbance in Washington is planned, rehearsed and staged by the National Woman Party like the big scene in a movie melodrama. Then it is "put across" on schedule time, when the suffragist captains are sure the newspaper correspondents and camera men are out in force, when advance notices have drawn a crowd to the spot and when the vote hunters are sure they will get their money's worth in world-wide publicity. Miss Alice Paul and Miss Burns are the stage managers. They write the scenarios. Mrs. Abbey Scott Baker, Queen of Press Agentesses, commands the army of fair scribes which spreads the startling details and makes sure all newspapers and press associations are kept informed. When a riot is planned the hour is usually set for 12:30 p. m., or 4:30 p. m., when the necessary spectators and participants will be supplied by crowds of clerks coming from the State, War and Navy buildings. The militants "show" is planned at their headquarters near the White House. Volunteers crowd around the leaders, anxious to be cast in prominent roles. Mrs. Baker's brigade gets busy. Telephones tinkle, in all newspaper offices. The event is announced. The rehearsal completed, out sally the women, do their stunts, get arrested, get released and return to headquarters. Then rings the clatter and clash of typewriters. They batter forth sarcastic descriptions of the scene. And when the dust settles, the patrol wagons cease their clangor and the angry cries of the mobs die away, staring headlines in the newspapers mark the end of the militants' perfect day.

U. OF O. ARMORY BUILDING

Eugene, Ore., July 23.—The University of Oregon armory, now under construction, will be completed before August 10. The building will cost \$4394. It will have a floor space of 84x117 feet and is being built of wood on a concrete foundation. The building will include an office room for the commandant and the drill hall proper will be constructed like other modern buildings of its kind—with dirt floor and free of posts or other obstacles. The entire cost of the armory is being met by the university but it is expected that rifles and other equipment will be furnished by the war department. Application for such equipment has already been sent to Washington, but no reply has been received. Military instruction will be given at the university school in the fall by an officer detailed by the war department.

Taking Long Trip

D. Bussard and wife and daughter, Ethel, will leave today for Southern Oregon where they will spend two weeks fishing and later Mr. Bussard expects to get the limit in deer. They will then motor to Idaho and expect to visit Yellowstone Park before returning to Albany.

MARKET REPORT
