### SOME QUEER ONES

A lemon farm has been started on a wild tract of land in south Jersey.

Kenney (N. J.) council passed a resolution that all members hereafter wear dress suits to meetings.

One of the first things done by the new Russia was to admit four women lawyers to Moscow bar.

They are taking a census of coal in France to prevent any one having more than one ton at a time.

Pacifist who punched Senator Lodge has enrolled for the Plattsburg training camp.

A Kansas bootlegger carries booze in a concealed hot water bottle and serves it through a tube in sanitary drinking cups.

### GENERAL KORNILOFF NEW IDOL OF ALL THE RUSSIANS

#### Hero of Successful Offensive in Galicia Was Born in a Log Cabin.

Russia is ringing with the name of the latest hero of the war, Lieutenant General L. G. Korniloff, victor of Galicia, whose astounding feats proved that the new advance is no mere flash in the pan. General Korniloff is the most daring, chivalrous and scholarly officer in the army. For a romantic rise from humble origin Russian history has only one parallel—that of Michel Vassilievitch Lomonosoff, fisherman's son, poet, philosopher, creator of the modern Russian language, in the first half of the eighteenth century.

From log cabin to general is the literal history of the career of General Korniloff's career. Born forty six years ago, son of a wood stave maker, he later gained a large family on a pitance gained as the village clerk, young Korniloff early began rough forest work. At the age of nine he received his first instruction. When barely thirteen he by his own exertions and all night studies qualified to enter the Siberian Cadets' corps largely composed of sons of local men of affairs. Thanks again to his own efforts this indomitable Siberian pioneer character gained free training at the Michailovsk Artillery school, where his amazing mathematical facilities brought approval from the authorities, even though he was suspected, with reason, of being a secret revolutionary.

Next General Korniloff was an officer in the Guards and, being penniless, was obliged to serve in Turkestan. In the Japanese war he received the rank of colonel and was entrusted with a desperate mission—that of covering the retreat from Mukden of one of General Kuropatkin's shattered armies. It was executed with such resolution and skill that he received the St. George cross. Later he traveled all through Turkestan, the Caucasus and Europe, studying, observing and writing invaluable books on Turkestan and the countries of central Asia.

### MEASURING A DRAFTED MAN.

He Must Come Up to Specifications Given Below to Be Accepted.

The doctors who examine the men for the draft army must follow the table given below for weight, height and chest measurements, all chest measurements to be taken on a level just above the nipple.

Height	Chest Measurement
Feet	Inches
5-1-12	41 118 21 2
5-2-12	42 120 21 2
5-3-12	43 122 21 2
5-4-12	44 124 21 2
5-5-12	45 126 21 2
5-6-12	46 128 21 2
5-7-12	47 130 21 2
5-8-12	48 132 21 2
5-9-12	49 134 21 2
5-10-12	50 136 21 2
5-11-12	51 138 21 2
6-0-12	52 140 21 2
6-1-12	53 142 21 2
6-2-12	54 144 21 2
6-3-12	55 146 21 2
6-4-12	56 148 21 2
6-5-12	57 150 21 2
6-6-12	58 152 21 2

The following variations below the standard given in the table are permissible when the applicant is active, has firm muscles and is evidently vigorous and healthy:

Height	Chest at Expiration	Weight
Inches	Inches	Pounds
43 and under 44	1	10
44 and under 45	2	10
45 and under 46	3	12
46 and under 47	4	12
47 and under 48	5	14
48 and under 49	6	14
49 and under 50	7	16
50 and under 51	8	16
51 and upward	9	18

To be acceptable men below sixty-four inches in height must be of good physique, well developed and muscular.

Variations in weight above the standard are not disqualifying unless sufficient to constitute obesity. Unless exceptionally well proportioned men above six feet six inches in height should be rejected.

**His Bit.**  
Two hundred acres of wheat on the Oren Smith farm at Valley Center, Kan., now being thrashed, are averaging fifty bushels of high grade wheat to the acre. Farmers say this is a Kansas record. Seven measured acres yielded sixty-eight bushels to the acre.

### CITY NEWS

**Weather Report—**  
Yesterday's temperature ranged between 46 and 80 degrees. The river fell to 17 feet.

**Visiting in Portland—**  
Dr. and Mrs. Gipe spent the weekend in Portland.

**Motored to Cascadia—**  
E. D. Cusick and family and Chas. Fortmiller and David Wieder motored to Cascadia Sunday.

**At Jefferson—**  
John Bryant and wife visited friends three miles east of Jefferson on Sunday.

**At Cascadia—**  
L. L. Swan and wife and Mr. and Mrs. Reagan motored to Cascadia Sunday.

**Returns from Trip—**  
Postmaster C. H. Stewart has returned from his trip over the Cascadia road.

**Leaving Albany—**  
Miss Ema Lenz is leaving today and will visit for a time at the home of Harvey Grell near Tangent.

**Going to the Coast—**  
E. H. Edgar and family and Mr. and Mrs. G. W. Rohrbach and wife will leave in the morning for Ocean View where they will spend a week or ten days.

**Astoria in Line—**  
W. A. Eastburn this morning received a letter from an Astoria business man asking him to explain the Albany delivery system. They expect to adopt the same plan in Astoria.

**Attended Conference—**  
A. C. Schmitt, Professor O. V. White, Rev. Davis of Brownsville, and G. W. Rohrbach attended a Sunday school conference in the Powell School district yesterday.

**Motored to Portland—**  
W. A. Eastburn and daughter, Florence motored to Portland yesterday and the former returned with Mrs. Eastburn and mother, Mrs. J. R. Douglass, Miss Eastburn will remain in Portland for several days.

**To Spend Summer Here—**  
Mrs. A. B. Atkins of Cottage Grove, arrived in the city Saturday and will spend the summer with her daughter, Mrs. John Kirkland. She was accompanied by her daughter, Mrs. Van Allison of Cottage Grove, who returned this morning.

**Went to Astoria—**  
Chris Benton was a passenger to Astoria Saturday.

### AMERICAN INDIANS JOIN UNCLE SAM'S MARINES

Port Royal, S. C., August 5.—The war whoop of our American Indian will soon be intermingled with the cries of the once savage East Indian tribes, who, trained to the use of the rifle by Great Britain, are now fighting at the front for the cause of democracy against a common foe.

Word received from Paris Island states that full-blooded American warriors are anxious to represent the "Billy Blues" abroad upon the completion of their training.

### OUR PORPOISE FISHERY.

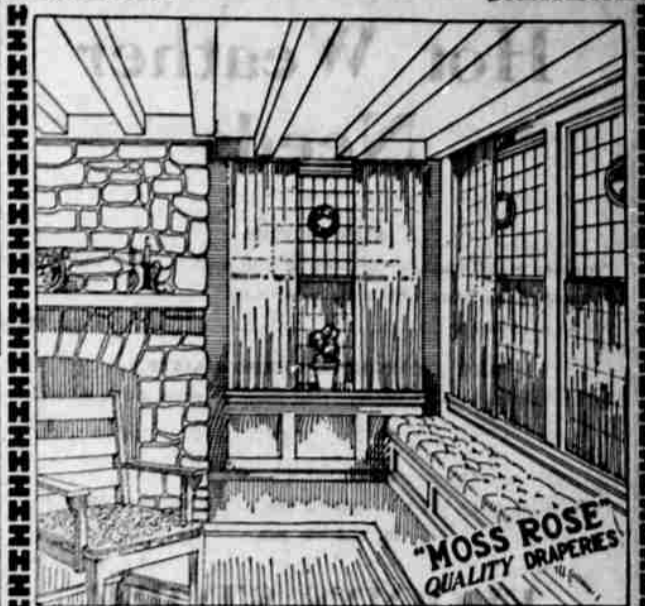

One of the Oldest and Least Known Industries in America.

One of the oldest and least known industries in America is the porpoise fishery, which has been operated from Cape Hatteras, in North Carolina, for about 200 years. It should attain an annual production in the next few years, for the business of fisheries is urging more general use of porpoise blubber in place of cowhide. It is an excellent leather and could undoubtedly be used more widely.

Hitherto the most valuable product of the fishery has been the oil which is extracted from the jaws of the porpoise and is worth about \$20 a gallon. It is universally used for lubricating watches and other very delicate mechanisms. The body blubber is also valuable. Attempts to manufacture fertilizer out of the carcasses have failed because of the distance from a fuel supply.

The porpoises are taken at Hatteras in seines operated from the shore, and it is probably the only place in America where this has ever been successfully done. During the fall, winter and spring many porpoises are seen off the south Atlantic coast and at Hatteras they come within a few hundred yards of the surf. They are taken by spreading seines about 200 yards outside the surf line. As soon as the porpoises have come inside the seine it is dragged ashore. Often a whole school of these sea creatures is taken in a single haul.—Baltimore American.

### HAMILTONS' QUALITY DRAPERIES

## New Draperies Will Make Your Home Like New

### URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink.

### KATHLYN WILLIAMS HERE

The story of "Out of the Wreck" in which the brilliant Morosco-Paramount star, Kathlyn Williams will be seen at the Globe tonight might be known as "The Memories of the For-Get-Me-Nots" as it deals with the influence of those tender flowers upon the life of a woman.

This story was written especially for Miss Williams by Maud E. Corson and was told to the author by a prominent attorney as the inside history of a famous murder trial. The attorney told the story to Miss Corson one night in his office and vividly described the incidents, which had to do with a young girl who is forced, through the death of her parents, by tuberculosis, to earn her own living; with her marrying the man she loves only to find out, when he is crazed by drink, that he already has a wife living and how to save her life she shoots him, is acquitted at the

trial and eventually becomes a mission worker, finally marrying a prominent politician. The tale so impressed the writer that she returned to her home and wrote the story for Miss Williams.

### CITY NEWS

Leaves for Seattle—

Manager Everett Cummings of the Globe left this morning for Seattle where he will book some new attractions for the present month.

Leave for Cascadia—

Mr. and Mrs. G. A. Flood left this morning for Cascadia where they expect to spend their summer outing.

Logan Passed Examination—

Agent H. S. Logan of the Oregon Electric Railway returned yesterday from Portland where he successfully passed his physical examination for a commission in the Quartermaster's Corps of the United States army. Mr. Logan took the examination several weeks ago and failed. His teeth were in poor condition and he had an entire new set made, with the result that the examining officer gave him a good bill of health.

## No Other Fireless Cook Stove LIKE THIS

Roasts Bakes Steams Stews Fries Boils

The "IDEAL" Fireless Cook Stove

An automatic maid that never grows tired, or careless—never burns the food, never wants a day out, never leaves you, demands no wages—that relieves you, of more than half of your kitchen work, saves-four-fifths of your fuel bill and cooks the most delicious meals you ever tasted.

We will be glad to Demonstrate the many Advantages to You.
