**An Electric Range
Is a Thing of Beauty**

Something every woman admires and wants in her kitchen but not for beauty alone.

Because electric ranges employ no open flame for heat—they are clean and safe.

Because they are clean they are sanitary. Because they are not subject to the whims of dampers and drafts and flues they are reliable.

More than all else—modern housewives prefer and use electric ranges because they are economical and produce superior results with less trouble. Ask about the new cooking and heating rate—and decide to take advantage of the low price time payment offer before it expires.
