## PEACE TALK CAMOUFLAGE

The belligerent armies on the battlefields of Europe are not the only experts in the use of camouflage. German propagandists in this country are using similar methods to promote their own underhanded work. They do not make military roads look like grass or conceal railroad lines beneath stage underbrush. Instead, they organize peace societies and councils that advocate democracy and oppose war measures in the same program. They hide pernicious pro-German propaganda behind false advocacy of democratic principles.

Labor standards must be upheld and steadily raised. Every intelligent citizen believes that and is willing to work for it just as he looks toward permanent peace and human freedom. But the German propagandist who cares little about such democracy, uses it beautifully in his pleas for peace. And many a gullible soul is taken in and begins to shout for peace, against war; to doubt the causes of America's entry into the struggle and to oppose measures for effectively carrying the fight to a definite and safe conclusion.

We're fighting this war for democracy. We're fighting it for peace. Don't let the camouflage of premature peace talk deceive you into wavering in your faith, in our ideals and purposes or swinging your allegiance to an artfully disguised autocracy.

## LOOKING UP THE FOLKS

A certain farmer, who was born in Germany and had found prosperity and happiness in Kansas, recently bade his son good-bye. The son had enlisted in the army, with his father's approval. Paternal emotions were divided between the pain of parting and the pleasure of old memories. The latter won.

"When we get the Germans licked," said the father, "you'd better stop at Mecklenburg on the way back and look up the folks."

And there are those who insist that a German is never really Americanized!

THE DIETARY REMEDY  
FOR ALL THE COMMON ILLS  
OF THE DIGESTIVE SYSTEM  
SOLD BY DRUGGISTS EVERYWHERE

DRINK A GLASS  
OF REAL HOT WATER  
BEFORE BREAKFAST.

Says we will both look and feel  
clean, sweet and fresh  
and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

## MARKET REPORT

The prices given in the local quotations are those asked by the wholesaler from the retailer for fruit and vegetables. All other prices are those paid the producer. List corrected daily.
