The Children's Eye-sight

should be preserved and protected for them until they reach the age of discretion!

Often weaknesses of the eye can be cured during the formation period of childhood, by wearing glasses of a proper nature to strengthen the muscles of the eye. Every child should have the benefit of an examination before the beginning of school. E. C. MEADE, Optometrist

Your Grocer will deliver

You've enjoyed it at restaurants and other places—now you want your family and your guests to join you in the same pleasure. That's one of the joys of serving Bevo—to hear your guests say how good it is—then to listen to their arguments as to just what it is. If they haven't seen the bottle they'll all agree that it is something else—if they have seen the bottle each will have a different explanation for its goodness.

Bevo is nutritive—pure through pasteurization and sterilization—non-intoxicating, wholesome and thoroughly refreshing. Note—Bevo should be served cold.

Bevo—the all-year-'round soft drink

Get Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, steamships, and other places where refreshing beverages are sold. Guard against substitutes—have the bottle opened in front of you.
Bevo is sold in bottles only—and is bottled exclusively by
